The research described in this thesis was performed at the division of BioTherapeutics at the Leiden Academy Centre for Drug Research (Leiden University, Leiden, The Netherlands). This research was supported by Leiden Academic Centre for Drug Research. The realization of this thesis was also supported by Leiden University.

To my beloved grandmother Maria

Table of contents

Chapter 1	General introduction	9
Chapter 2	Hypercholesterolemia in young adult <i>APOE</i> ^{-/-} mice alters epidermal lipid composition and impairs barrier function	33
Chapter 3	Hyperalphalipoproteinemic scavenger receptor BI knockout mice exhibit a disrupted epidermal lipid barrier	65
Chapter 4	Compensatory lipid metabolism in the skin of apolipoprotein AI deficient mice in response to hypoalphalipoproteinemia	99
Chapter 5	Barrier lipid composition and response to plasma lipids: a direct comparison of mouse dorsal back and ear skin	121
Chapter 6	Complement receptor targeted liposomes encapsulating the liver X receptor agonist GW3965 accumulate in and stabilize atherosclerotic plaques	145
Chapter 7	Summary, Discussion, and Perspectives	169
Appendix	Nederlandse Samenvatting Curriculum Vitae List of publications	193
