## Table of contents

<b>Chapter 1</b>	General introduction	9
<b>Chapter 2</b>	Development of an international standard set of value-based outcome measures for patients with chronic kidney disease: a report of the International Consortium for Health Outcomes Measurement (ICHOM) CKD Working Group	21
<b>Chapter 3</b>	Comparative survival among older adults with advanced kidney disease managed conservatively versus with dialysis	61
<b>Chapter 4</b>	Value-based evaluation of dialysis versus conservative care in older patients with advanced chronic kidney disease: a cohort study	79
<b>Chapter 4a</b>	Reanalysis of the physical and mental health summary scores of dialysis versus conservative care in older patients with advanced chronic kidney disease: a critical appraisal	109
<b>Chapter 5</b>	Health-related quality of life and symptoms of conservative care versus dialysis in patients with end-stage kidney disease: a systematic review	121
<b>Chapter 6</b>	Hospital utilization and costs in older patients with advanced chronic kidney disease choosing conservative care or dialysis: a retrospective cohort study	161
<b>Chapter 7</b>	Older patients' experiences with a shared decision-making process on choosing dialysis or conservative care for advanced chronic kidney disease: a survey study	187

<b>Chapter 8</b>	Asking the right questions: towards a person-centered conception of shared decision-making regarding treatment of advanced chronic kidney disease in older patients	211
<b>Chapter 9</b>	General discussion	227
	<b>Nederlandse samenvatting</b>	253
	<b>Dankwoord</b>	263
	<b>Curriculum vitae</b>	267
	<b>List of publications</b>	269
