Table of contents

Chapter 1	General introduction	9
Chapter 2	Development of an international standard set of value-based outcome measures for patients with chronic kidney disease: a report of the International Consortium for Health Outcomes Measurement (ICHOM) CKD Working Group	21
Chapter 3	Comparative survival among older adults with advanced kidney disease managed conservatively versus with dialysis	61
Chapter 4	Value-based evaluation of dialysis versus conservative care in older patients with advanced chronic kidney disease: a cohort study	79
Chapter 4a	Reanalysis of the physical and mental health summary scores of dialysis versus conservative care in older patients with advanced chronic kidney disease: a critical appraisal	109
Chapter 5	Health-related quality of life and symptoms of conservative care versus dialysis in patients with end-stage kidney disease: a systematic review	121
Chapter 6	Hospital utilization and costs in older patients with advanced chronic kidney disease choosing conservative care or dialysis: a retrospective cohort study	161
Chapter 7	Older patients' experiences with a shared decision-making process on choosing dialysis or conservative care for advanced chronic kidney disease: a survey study	187

Chapter 8	Asking the right questions: towards a person-centered conception of shared decision-making regarding treatment of advanced chronic kidney disease in older patients	211
Chapter 9	General discussion	227
	Nederlandse samenvatting	253
	Dankwoord	263
	Curriculum vitae	267
	List of publications	269
