## **Proefschrift**

ter verkrijging van de graad van doctor aan de Universiteit Leiden,  
op gezag van rector magnificus prof. dr. ir. H. Bijl,  
volgens besluit van het college voor promoties  
te verdedigen op donderdag 28 oktober 2021  
klokke 11.15 uur

door

Sjoerd de Hoogd  
geboren te 's-Gravenhage, Nederland  
in 1987

**Promotores**

Prof. dr. C.A.J. Knibbe

Prof. dr. D. Tibboel

**Co-promotor**

dr. H.P.A. van Dongen

St. Antonius Ziekenhuis

**Promotiecommissie**

Prof. dr. H. Irth (voorzitter)

Prof. dr. J.A. Bouwstra (secretaris)

Prof. dr. A. Dahan

Amsterdam UMC

Prof. dr. J.N. van den Anker

Children's National Medical Center, Washington,  
DC, USA

dr. E.H.J. Krekels

The research described in this thesis was performed at the department of Clinical Pharmacy of the St. Antonius Hospital, Nieuwegein, The Netherlands and the division of Systems Biomedicine and Pharmacology of the Leiden Academic Centre for Drug Research (LACDR), Leiden University, Leiden, The Netherlands. Printing of this thesis was financially supported by: Department of Anaesthesiology, Intensive Care and Pain management, Stichting KNMP fondsen and Stichting Bevordering Klinisch Farmacologisch Onderzoek.

## **Contents**

<b>Section I</b>	<b>General introduction and background</b>	<b>9</b>
Chapter 1	Introduction	11
<b>Section II</b>	<b>Opioid analgesia for acute and chronic pain in adult cardiac surgery patients</b>	<b>21</b>
Chapter 2	Is intraoperative remifentanil associated with acute or chronic postoperative pain after prolonged surgery? An update of the literature.	23
Chapter 3	Remifentanil versus fentanyl during cardiac surgery on the incidence of chronic thoracic pain (REFLECT): study protocol for a randomised controlled trial.	47
Chapter 4	Randomised controlled trial on the influence of intra-operative remifentanil versus fentanyl on acute and chronic pain after cardiac surgery.	59
Chapter 5	Short and long term impact of remifentanil on thermal detection and pain thresholds after cardiac surgery: a randomised controlled trial.	79
Chapter 6	<i>OPRM1</i> and <i>COMT</i> polymorphisms: implications on postoperative acute, chronic, and experimental pain after cardiac surgery.	99
<b>Section III</b>	<b>Opioids after paediatric cardiac surgery</b>	<b>123</b>
Chapter 7	Postoperative breakthrough pain in paediatric cardiac surgery is not reduced by increased morphine concentrations.	125
<b>Section IV</b>	<b>Pharmacokinetics of opioids in obese patients</b>	<b>147</b>
Chapter 8	Obesity and drug pharmacology: a review of the influence of obesity on pharmacokinetic and pharmacodynamic parameters.	149

Chapter 9	The influence of morbid obesity on the pharmacokinetics of morphine and morphine-3 and morphine-6-glucuronide.	176
<b>Section V</b>	<b>Summary, conclusions and perspectives</b>	<b>203</b>
Chapter 10	The impact of opioids on postoperative pain in different patient populations: Summary, conclusions and perspectives	205
Chapter 11	Dutch summary	231
<b>Section VI</b>	<b>Appendices</b>	<b>249</b>
	Curriculum Vitae	250
	List of publications	251
	Nawoord/Acknowledgments	252
