Proefschrift

ter verkrijging van

de graad van doctor aan de Universiteit Leiden,

op gezag van rector magnificus prof.dr.ir. H. Bijl,

volgens besluit van het college voor promoties

te verdedigen op dinsdag 16 november 2021

klokke 15.00 uur

door

Lisa Theodora Christina Maria van Weert

geboren te Schijndel

in 1989

Promotor

prof.dr. O.C. Meijer

Co-promotor

prof.dr. B. Roozendaal

Leden promotiecommissie

prof.dr. J.A.P. Willems van Dijk

dr. M.J.M. Schaaf

prof.dr. W. Zwart (NKI, Amsterdam en TU/e, Eindhoven)

prof.dr. M. Joëls (UMC Utrecht en UMCG, Groningen)

The work described in this thesis was performed at the department of Medicine, division of Endocrinology, Leiden University Medical Center, Leiden, The Netherlands, and the Department of Cognitive Neuroscience, Radboud University Medical Center and Donders Institute for Brain, Cognition and Behaviour, Radboud University, Nijmegen, The Netherlands.

The research described in this thesis was supported by a grant of the Netherlands Organisation for Scientific Research (NWO-ALW, 823.02.002).

Table of contents

Chapter 1	General introduction	7
Chapter 2	NeuroD factors discriminate mineralocorticoid from glucocorticoid receptor DNA binding in the male rat brain	37
Chapter 3	Identification of mineralocorticoid receptor target genes in the mouse hippocampus	67
Chapter 4	Mechanistic insights in NeuroD potentiation of mineralocorticoid receptor signaling	89
Chapter 5	Interactions of transcription factors at the genome, induced by stress hormones during memory consolidation	111
Chapter 6	Summary and general discussion	137
Chapter 7	Nederlandse samenvatting	156
	List of publications	160
	Curriculum vitae	162
	Dankwoord	164
