Article Recommendations

It has come to our attention that we did not correctly acknowledge the synchrotron where some of the measurements were performed. To rectify this, the acknowledgments section of our paper has been updated.

ACKNOWLEDGMENTS

We acknowledge Arthur Sjardin for technical support on the setup. The authors thank Sebastian Fava, Kamil Filipczak, Chia-Chi Liu, and Camille Barbier for participation in experiments. Parts of this research were carried out at beamline P08 at PETRA-III at DESY, a member of the Helmholtz Association (HGF). We thank Bridget Murphy, Chen Shen, and Andrea Sartori for their assistance in using the LISA diffractometer at beamline P08 which is supported by the University of Kiel via the Ruprecht Haensel Laboratory and is funded by the Federal Ministry of Education and Research (BMBF) under the 05K19FK2 grant agreement.
