CO₂ reduction on post-transition metals and their alloys: an industrial approach

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof.dr.ir. H. Bijl,
volgens besluit van het college voor promoties
te verdedigen op woensdag 20 april 2022
klokke 13:45 uur
door
Davide Pavesi
geboren te Rome in 1990

Promotor:

Prof. Dr. Marc T. M. Koper

Co-promotores:

Dr. Klaas Jan P. Schouten (Teijin Aramid)

Prof. Dr. Gert-Jan M. Gruter (Universiteit van Amsterdam, Avantium)

Promotiecommissie:

Prof. Dr Hermen S. Overkleeft

Prof. Dr. Lies Bouwman

Prof. Dr. Lars J. C. Jeuken

Prof. Dr. Tanja Kallio (Aalto University / Aalto-yliopisto)

Prof. Dr. Tom E. Burdyny (Technische Universiteit Delft)

This work was supported by the European Commission under contract 722614 (Innovative training network Elcorel).

ISBN: 978-94-6423-754-2

Cover art: Davide Pavesi

Printed by ProefschriftMaken

TABLE OF CONTENTS

1. Introduction	p.1
2. Post-transition metals: their characteristics and use in sustainable heterogeneous catalysis and electrocatalysis	p.17
3. Cathodic disintegration as an easily scalable method for the production of Sn and Pb based catalysts for CO ₂ reduction	p.57
4. Cathodic disintegration of Sn and Pb: some evidence for a Zintl phase mediated mechanism and possible implications for electrocatalysis	p.83
5. CO ₂ electroreduction on bimetallic Pd-In nanoparticles	p.107
6. Modulation of the selectivity of CO ₂ to CO electroreduction in Palladium rich Palladium-Indium nanoparticles	p.129
7. Electrochemical CO ₂ reduction on gas diffusion electrodes: enhanced selectivity of In-Bi bimetallic particles and catalyst layer optimization through a Design of Experiment approach	p.159

Appendices

A. Supplementary information to Chapter 3	p.185
B. Supplementary information to Chapter 4	p.191
C. Supplementary information to Chapter 5	p.199

D. Supplementary information to Chapter 6	p.209
E. Supplementary information to Chapter 7	p.231
Summary and future perspectives	p.237
Samenvatting	p.243
List of publications	p.249
Curriculum vitae	p.251
Acknowledgements	p.253
