Table of contents

| | | |
|---|---|-----|
| Chapter one. | General introduction and outline the thesis | 7 |
| Part I Epidemiology in secondary mitral regurgitation | | |
| Chapter two. | Sex differences in prognosis of significant secondary mitral regurgitation | 25 |
| Part II Echocardiography and prognosis in secondary mitral regurgitation | | |
| Chapter three. | Prognostic value of global longitudinal strain in patients with secondary mitral regurgitation | 41 |
| Chapter four. | Regurgitant Volume/Left Ventricular End-diastolic Volume Ratio: Prognostic Value in Patients with Secondary Mitral Regurgitation | 59 |
| | <i>Part I Letter to the editor: Regurgitant Volume/Left Ventricular End-Diastolic Volume Ratio: The Influence of Aortic Stiffness</i> | 77 |
| | <i>Part II Reply to the editor: Regurgitant Volume/Left Ventricular End-Diastolic Volume Ratio: The Influence of Aortic Stiffness</i> | 81 |
| Chapter five. | Geometrical mitral valve differences in heart failure patients with secondary mitral regurgitation treated with transcatheter mitral valve repair | 93 |
| Chapter six. | Right ventricular-arterial coupling in patients with significant secondary mitral regurgitation | 117 |
| Chapter seven. | Summary, conclusions and future perspectives Samenvatting, conclusie en toekomstperspectieven | 135 |
| Appendix. | List of publications, Dankwoord, Curriculum Vitae | 145 |
