A close-up photograph of a woman on the left, seen in profile, feeding a baby on the right. The woman is holding a spoon with a yellow and white striped handle, which is positioned near the baby's open mouth. The baby is wearing a bright orange bib and a colorful striped shirt. The background is a soft, out-of-focus white, suggesting a bright indoor setting. The overall mood is warm and focused on the act of feeding.

Mealtime interactions

The role of sensitive parental feeding behavior in the first years of life
