IDENTIFYING AND CHARACTERIZING REGULATORS OF HISTONE ACYLATION AND REPLICATION STRESS

Leonie Kollenstart

The studies described in this thesis were performed at the Department of Human Genetics at the Leiden University Medical Centre, Leiden, the Netherlands.

ISBN/EAN: 978-94-6458-466-0

The printing of this thesis was financially supported by the Leiden University Library.

Cover design: The cover and title pages have been designed by Leonie Kollenstart using images from Freepik.com

About the cover: The pattern on the cover is based on the Japanese artform Kintsugi, where broken pottery is repaired by with a lacquer mixed with powdered gold. Instead of hiding the (DNA) break, the repair is highlighted. Therefore, the philosophy of this artform is to turn adversity into beauty.

IDENTIFYING AND CHARACTERIZING REGULATORS OF HISTONE ACYLATION AND REPLICATION STRESS

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof. dr. ir. H. Bijl,
volgens besluit van het college voor promoties
te verdedigen op donderdag 8 september
klokke 16.15 uur
door

Leonie Kollenstart
geboren te Almelo
in 1989

Promotor	prof. dr. H. van Attikum
Copromotor	prof. dr. ir. S.M. van der Maarel
Leden promotiecommissie	prof. dr. N.H. Dekker (Leids Universitair Medisch Centrum & Technische Universiteit Delft) prof. dr. P.J.J. Hooykaas (Universiteit Leiden) prof. dr. F. van Leeuwen (Nederlands Kanker Instituut) dr. N. Taneja (Erasmus Medisch Centrum Rotterdam)

Voor papa en oma

CONTENTS

Chapter 1	General Introduction	11
Chapter 2	Epigenetics Identifier screens reveal regulators of chromatin acylation and limited specificity of acylation antibodies	41
Chapter 3	Gcn5 and Esa1 function as histone crotonyltransferases to regulate crotonylation-dependent transcription	75
Chapter 4	The Mediator complex limits transcription-replication conflicts by preventing R-loop formation	109
Chapter 5	Replication-IDentifier: a genome-wide approach to identify regulators of replication fork progression and stability	145
Chapter 6	Perspectives	175
Chapter 7	Nederlandse samenvatting	194
	Curriculum vitae	198
	Publications	200
	Dankwoord	202
