### Exploring Strange New Worlds with High-Dispersion Spectroscopy

Proefschrift

ter verkrijging van de graad van doctor aan de Universiteit Leiden, op gezag van rector magnificus prof.dr.ir. H. Bijl, volgens besluit van het college voor promoties te verdedigen op donderdag 6 oktober 2022 klokke 15:00 uur

 $\operatorname{door}$ 

Dilovan Banks Serindag geboren te Alexandria, Virginia, United States of America in 1993 **Promotor:** Prof.dr. I.A.G. Snellen

**Co-promotor:** Dr. M.A. Kenworthy

#### Promotiecommissie:

Prof.dr. H.J.A. Röttgering Prof.dr. E.F. van Dishoeck Prof.dr. C.U. Keller Dr. L. Kaltenegger (Cornell University) Dr. H.J. Hoeijmakers (Lund University)

ISBN 978-94-6423-974-4

Cover designed by Maria Cristina Fortuna and Dilovan Banks Serindag, and illustrated by Maria Cristina Fortuna

Printed by ProefschriftMaken (www.proefschriftmaken.nl)

To my grandfather, David G. Banks, who instilled in me the importance and power of education and learning

## Contents

1 Introduction				
	1.1	Method	s for probing exoplanet atmospheres	4
		1.1.1	Transit spectroscopy	4
		1.1.2	Emission spectroscopy	6
		1.1.3	Imaging spectroscopy	6
		1.1.4	Spectral resolution	7
	1.2	Studies	of exoplanet atmospheres	8
		1.2.1	Chemical composition	8
		1.2.2	Structure and dynamics	0
		1.2.3	Young planets	2
		1.2.4	Habitability and extraterrestrial life	3
	1.3	This dis	ssertation	5
	1.0
