Multifaceted role of the complement system in health and disease

A focus on properdin

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof. dr. ir. H. Bijl,
volgens besluit van het college voor promoties
te verdedigen op donderdag 6 oktober 2022
klokke 16.15 uur

door

Mieke Friederika van Essen
geboren te Arnhem
in 1992

Promotor

Prof. dr. C. van Kooten

Co-promotor

Dr. J.M. Ruben

Leden promotiecommissie

Prof. dr. A.J. Rabelink

Dr. L.A. Trouw

Prof. dr. N.C.A.J. van de Kar (Radboud universitair medisch centrum)

Prof. dr. S.P. Berger (Universitair Medisch Centrum Groningen)

Table of contents

Chapter 1	General introduction	7
Chapter 2	Role of properdin in complement-mediated kidney diseases <i>Nephrology Dialysis Transplantation 2019</i>	37
Chapter 3	Deposition of complement components C4d and C5b-9 in renal transplant biopsies associate with delayed graft function <i>Manuscript in preparation</i>	59
Chapter 4	Human macrophages produce and secrete complement regulators factor H and factor H-like protein 1 and complement stabilizer properdin <i>Submitted for publication</i>	77
Chapter 5	Initial properdin binding contributes to alternative pathway activation at the surface of viable and necrotic cells <i>European Journal of Immunology 2022</i>	99
Chapter 6	Culture medium used during small interfering RNA (siRNA) transfection determines the maturation status of dendritic cells <i>Journal of Immunological Methods 2020</i>	127
Chapter 7	Properdin produced by dendritic cells contributes to the activation of T cells <i>Accepted for publication at Immunobiology</i>	145
Chapter 8	Summary, general discussion and future perspectives	165
Chapter 9	Appendices	
	Nederlandse samenvatting	186
	List of publications	195
	Curriculum vitae	199
	Dankwoord	201
