Seeing voices:  
the role of multimodal cues in vocal learning

Proefschrift

ter verkrijging van  
de graad van doctor aan de Universiteit Leiden,  
op gezag van rector magnificus prof.dr.ir. H. Bijl,  
volgens besluit van het college voor promoties  
te verdedigen op donderdag 20 oktober 2022  
klokke 16:15 uur

door

Judith Mirjam Varkevisser  
geboren te Leidschendam, Nederland  
in 1992

## Promotor

Prof. dr. C. J. ten Cate

## Copromotor

Dr. K. Riebel

## Promotiecommissie

Prof. dr. G. P. van Wezel

Prof. dr. M. Richardson

Prof. dr. C. Levelt

Prof. dr. M. Naguib (Wageningen University & Research)

Dr. J. Sakata (McGill University, Canada)

Dr. J. Hyland Bruno (Columbia University, USA)

Dit onderzoek is gefinancierd door de Human Frontier Science Program

*Don't you wonder sometimes 'bout sound and vision?*

David Bowie

# Table of Contents

Chapter 1	General introduction	9
Chapter 2	Multimodal cues in songbird vocal learning provide perspective on discrepancies between live and audio-only tutoring	21
Chapter 3	Multimodality during live tutoring is relevant for vocal learning in zebra finches	51
Chapter 4	Adding colour realistic video images to audio playbacks increases stimulus engagement but does not enhance vocal learning in zebra finches	93
Chapter 5	Song learning from a singing robotic bird versus from audio-only song playback in young zebra finches	143
Chapter 6	Thesis summary and general discussion	177
	Nederlandse samenvatting	193
	Acknowledgements	198
	Curriculum Vitae	199
