Additional financial support was kindly provided by Bayer Healthcare B.V., Boehringer Ingelheim B.V., Chipsoft, Federatie van Nederlandse Trombosediensten, Trombosetichting Nederland, LEO Pharma B.V. and STAGO B.V.

CONTENTS

Chapter 1	Introduction	7
Chapter 2	Home treatment of acute pulmonary embolism: state of the art in 2018	13
Chapter 3	Uncertain Value of High-sensitive Troponin T for Selecting Patients With Acute Pulmonary Embolism for Outpatient Treatment by Hestia Criteria	27
Chapter 4	Right Ventricle-to-Left Ventricle Diameter Ratio Measurement Seems to Have No Role in Low-Risk Patients with Pulmonary Embolism Treated at Home Triaged by Hestia Criteria	39
Chapter 5	Reasons for Hospitalization of Patients with Acute Pulmonary Embolism Based on the Hestia Decision Rule	53
Chapter 6	Current practice patterns of outpatient management of acute pulmonary embolism: A post-hoc analysis of the YEARS study	67
Chapter 7	Home treatment of patients with cancer-associated venous thromboembolism - An evaluation of daily practice	81
Chapter 8	Effectiveness and Safety of Apixaban for Treatment of Venous Thromboembolism in Daily Practice.	97
Chapter 9	Home treatment compared to initial hospitalization in normotensive patients with acute pulmonary embolism in the Netherlands: a cost analysis	115
Chapter 10	General discussion and summary	129
Chapter 11	Nederlandse samenvatting	137
Appendices	List of publications	145
	Dankwoord	149
	Curriculum vitae	151
