How respect and friendship became partnership.]* ['A scientist and his time: To the 170th birthday of N.I. Kareeva and S.V. Kovalevskaya. The XLI International Scientific Annual Conference of the St. Petersburg Branch of the Russian National Committee on the History and Philosophy of Science and Technology of the Russian Academy of Sciences.] October 26-30, 2020, Saint Petersburg, Russian Federation

Acknowledgements

The dissertation in front of you would not have been possible without the help and support of many colleagues and friends in both the Netherlands and in the Russian Federation and not in the last place my husband Fred Boer. The shared passion for history of Medicine of 19th century Imperial Russia and especially focused on Nikolay Ivanovich Pirogov has brought me to various locations. I have been in the libraries of the Military Medical Academy, the Military Medical Museum, the State Museum "the Hermitage", the Academy of Sciences and also public libraries. All these libraries gave me the possibility to view, read and digitalise many historical first editions, handwritten manuscripts, but also personal letters from great doctors from both Russia and the Netherlands.

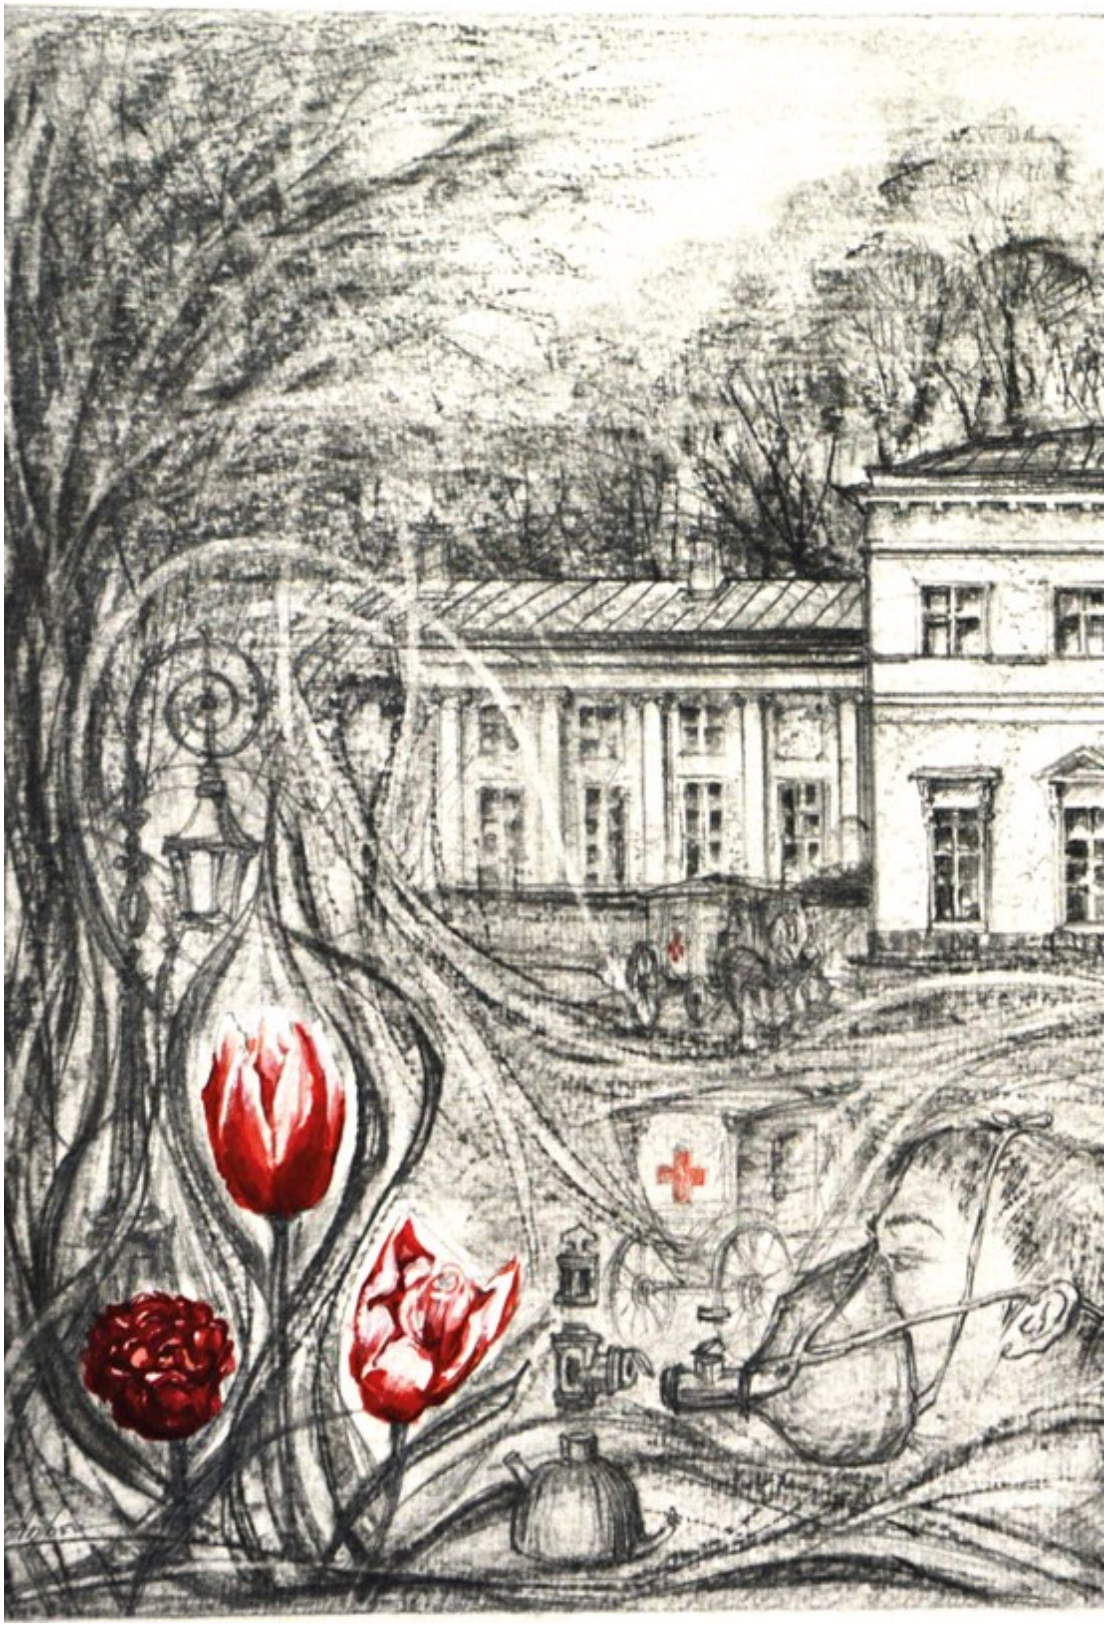
I am particularly very thankful to Prof. Dr. A.A. Budko, director of the Military Medical Museum and his staff, and to Prof. Dr. A. Ya. Fisun and Prof.dr. E.V. Kryukov, general directors of the Military Medical Academy in Saint Petersburg and their staff for their kind support and enthusiasm.

I like to mention J.W. Schoones, MA, advisor collection management and information specialist of the Walaeus Library of the Leiden University Medical Center. He made it possible for us to work out the bibliographies in the tables and figures.

My special thanks also go to the staff of the Consulate General of the Kingdom of the Netherlands in Saint Petersburg, Russian Federation for their support and advice.

I also wish to express my very special thanks for the help of the late Mr. Anton N. Gubankov, former head of the Cultural Department of the Ministry of Defence of the Russian Federation. Unfortunately, Anton was killed in an airplane crash on 25 December 2016. Without his help and support our common task in researching the material for my scientific work would have been immensely more difficult.

In particular, I want thank my supervisor prof.dr. Pancras C.W. Hogendoorn and my co-supervisor Dr. Liudmila B. Narusova for their trust and guidance in the realisation of this thesis. I am grateful for the immense and generous help and support I received from them. Mrs. Narusova, President of the Anatoly Sobchak Foundation, organised the allowances to access the Military Medical Academy and the Military Medical Museum especially to their libraries and archives.

Curriculum vitae


Ingrid Fokkiena Hendriks was born on 29 April, 1955, in Deventer, The Netherlands. In 1973, she passed the final exam of the HAVO at the Alexander Hegius Scholengemeenschap in Deventer. In 1983 she passed the exams for Technical Ophthalmic Assistant at the Leidse Onderwijsinstellingen in Leiderdorp. In 1987 she passed the exam for Latin for Pre-university education at the Day- and Evening Scholengemeenschap “Boerhaave” in Leiden. In 1992 she passed the Colloquium Doctum at Leiden University . In the same year she started her study on Slavic Language and Literature at the University of Leiden. She graduated in 2001. In 2013 she started as an external PhD-researcher at the Leiden University Medical Center work on the subject: "Nikolay Ivanovich Pirogov and his contribution to Medicine in 19th Century Imperial Russia."
