Sparsity-based Algorithms for Inverse Problems

Proefschrift

ter verkrijging van

de graad van doctor aan de Universiteit Leiden,

op gezag van rector magnificus prof.dr.ir. H. Bijl,

volgens besluit van het college voor promoties

te verdedigen op donderdag 8 december 2022

klokke 12:30 uur

door

Poulami Somanya Ganguly

geboren te Kolkata, India

in 1992

Promotores:
Prof.dr. K.J. Batenburg
Prof.dr. H.J. Hupkes

Co-promotor:
Dr. F. Lucka (Centrum Wiskunde & Informatica)

Promotiecommissie:
Prof.dr. F.A.J. de Haas
Prof.dr. A. Doelman
Prof.dr. C.B. Schönlieb (University of Cambridge)
Prof.dr. A.B. Dahl (Technical University of Denmark)
Dr. D.M. Pelt

The research presented in this dissertation was carried out at Centrum Wiskunde & Informatica (CWI) and Leiden University.

Financial support was provided by the European Union's Horizon 2020 Research and Innovation programme under the Marie Sklodowska-Curie grant agreement no. 765604.

Contents

1 Introduction **3**
- 1.1 Background . . . 3
- 1.2 Application areas . . . 5
- 1.3 Inverse problems . . . 7
- 1.4 Computational solution of inverse problems using sparsity . . . 11
- 1.5 Research questions . . . 16

2 Implementation-adapted filters for synchrotron tomography **21**
- 2.1 Introduction . . . 21
- 2.2 Background . . . 25
- 2.3 Implementation-adapted filters . . . 27
- 2.4 Data and metrics . . . 30
- 2.5 Numerical experiments and results . . . 34
- 2.6 Discussion . . . 40
- 2.7 Conclusion . . . 42

3 Sparse grid-free reconstruction of nanocrystal defects **43**
- 3.1 Introduction . . . 43
- 3.2 Problem setting . . . 44
- 3.3 Algorithms . . . 48
- 3.4 Numerical experiments . . . 51
- 3.5 Discussion . . . 56
- 3.6 Conclusions . . . 57

4 Grid-free marker-based alignment in cryo-electron tomography **59**
- 4.1 Introduction . . . 59
- 4.2 Mathematical formulation . . . 62
- 4.3 Optimization . . . 66
- 4.4 Numerical experiments . . . 70
- 4.5 Results . . . 75
- 4.6 Conclusion and discussion . . . 84

5 Learning cell–cell interactions for vascular network formation **87**
5.1 Introduction . . . 87
5.2 Background . . . 89
5.3 SINDy for pairwise interaction discovery . . . 92
5.4 Numerical experiments and results . . . 93
5.5 Discussion and conclusions . . . 99

6 Conclusion **101**

Bibliography **103**

List of publications **113**

Samenvatting **115**

Curriculum Vitae **121**
