**Nanomaterial safety for microbially-colonized hosts:
Microbiota-mediated physisorption interactions and
particle-specific toxicity**

Brinkmann, B.W.

Citation

Brinkmann, B. W. (2022, December 8). *Nanomaterial safety for microbially-colonized hosts: Microbiota-mediated physisorption interactions and particle-specific toxicity*. Retrieved from <https://hdl.handle.net/1887/3494409>

On the cover:

Graphical representation of microbiota-dependent differences in the sensitivity of hosts to nanomaterials. The sizes of the depicted microbes and the dots of the uncertainty pattern are proportional to the sizes of bacteria and nanoparticles, respectively.

Nanomaterial safety for microbially-colonized hosts

microbiota-mediated
physisorption interactions
and particle-specific toxicity

Nanomaterial safety for microbially-colonized hosts:
microbiota-mediated physisorption interactions
and particle-specific toxicity

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof. dr. ir. H. Bijl,
volgens besluit van het college voor promoties
te verdedigen op donderdag 8 december 2022
klokke 13.45 uur
door

Bregje Willemijn Brinkmann

geboren te Haarlem
in 1993

Promotores:

Prof. dr. ing. M.G. Vijver

Prof. dr. ir. W.J.G.M. Peijnenburg

Promotiecomissie:

Prof. dr. A. Tukker

Prof. dr. ir. P.M. van Bodegom

Prof. dr. H.P. Spaink

Dr. G.J.A. Sevink

Prof. dr. I. Lynch (University of Birmingham)

Dr. L.M. Skjolding (Danmarks Tekniske Universitet)

This work was supported by the project PATROLS of European Union's Horizon 2020 research and innovation programme under grant number 760813.

Table of contents

6	Summary
10	Samenvatting
15	CHAPTER 1 General introduction
30	CHAPTER 1 Definitions

PHYSISORPTION INTERACTIONS

33	CHAPTER 2 Predicted adsorption affinity for enteric microbial metabolites to metal and carbon nanomaterials	63	CHAPTER 3 Adsorption of titanium dioxide nanoparticles onto zebrafish eggs affects colonizing microbiota
-----------	--	-----------	---

PARTICLE-SPECIFIC TOXICITY

91	CHAPTER 4 Colonizing microbiota protect zebrafish larvae against silver nanoparticle toxicity	113	CHAPTER 5 Microbiota-dependent TLR2 signaling reduces silver nanoparticle toxicity to zebrafish larvae
	133		CHAPTER 6 General discussion
146	References		
166	Curriculum vitae		
167	List of publications		
168	Acknowledgements
