## Bibliography

---

For sources which are available online, I strive to provide information on how to find them; whenever possible, with digital object identifiers (DOI), handles (HDL), or persistent identifiers from JStor or ProQuest. For web sources, I give a full link. For other sources available online, I do not provide links in the printed version of the dissertation, but the bibliography entries themselves are hyperlinked in the digital version. These links were all active when the dissertation was submitted, but are liable to become obsolete.

A few lengthy and commonly occurring names of journals, proceedings, and publishers are abbreviated in the reference list. These are: ARIPUC (*Annual Report of the Institute of Phonetics, University of Copenhagen*); CUP (Cambridge University Press); ICPhS (*Proceedings of the International Congress of the Phonetic Sciences*); JASA (*Journal of the Acoustical Society of America*); and OUP (Oxford University Press).
