ISBN 978-94-6458-791-3

Provided by thesis specialist Ridderprint, ridderprint.nl

Printing: Ridderprint

Layout and design: Erwin Timmerman, persoonlijkproefschrift.nl

The work presented in this thesis was carried out at the Department of Cell and Chemical Biology of the Leiden University Medical Center.

Financial support by the Dutch Heart Foundation for the publication of this thesis is gratefully acknowledged.

Enhancing epicardial EMT to repair the heart

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof.dr.ir. H. Bijl,
volgens besluit van het college voor promoties
te verdedigen op donderdag 2 februari 2023

klokke 15:00 uur

door

Esther Dronkers - van Zwet

geboren te Wageningen

in 1992

Promotor:

Prof. Dr. M.J.T.H. Goumans

Co-Promotor:

Dr. A.M. Smits

Promotiecommissie:

Prof. dr. P. ten Dijke

Prof. dr. S.M. Chuva de Sousa Lopes

Prof. dr. P.Y.W. Dankers (Technische Universiteit Eindhoven)

Dr. M.J.B. van den Hoff (Universiteit van Amsterdam)

TABLE OF CONTENTS

	Nederlandse Samenvatting	7
Chapter 1	Introduction	11
Chapter 2	The epicardium as a source of multipotent adult cardiac progenitor cells: Their origin role and fate (review)	23
Chapter 3	The Isolation and Culture of Primary Epicardial Cells Derived from Human Adult and Fetal Heart Specimens	59
Chapter 4	Small molecule screen identifies novel activators of epithelial to mesenchymal transition in human epicardial cells	77
Chapter 5	Epicardial TGF β and BMP Signaling in Cardiac Regeneration: What Lesson Can We Learn from the Developing Heart? (review)	113
Chapter 6	Activin A and ALK4 Identified as Novel Regulators of Epithelial to Mesenchymal Transition (EMT) in Human Epicardial Cells	155
Chapter 7	Epicardial Prrx1b restricts fibrosis and promotes Nrg1-dependent cardiomyocyte proliferation during zebrafish heart regeneration	181
Chapter 8	Optimization of two self-adhering drug delivery patches to target the epicardium of the injured heart	221
Chapter 9	Discussion	239
	List of publications	261
	Curriculum Vitae	263
	Dankwoord	265
