APH Paper 55

Vincent Prange & Ton Dietz

Italian East Africa

Version July 2022

Postage stamps and related objects are miniature communication tools, and they tell a story about cultural and political identities and about artistic forms of identity expressions. They are part of the world's material heritage, and part of history. Ever more of this postal heritage becomes available online, published by stamp collectors' organizations, auction houses, commercial stamp shops, online catalogues, and individual collectors. Virtually collecting postage stamps and postal history has recently become a possibility. These working papers about Africa are examples of what can be done. But they are work-in-progress! Everyone who would like to contribute, by sending corrections, additions, and new area studies can do so by sending an email message to the APH editors: Ton Dietz (dietzaj@asc.leidenuniv.nl) and Jan Jansen. You are welcome!

Disclaimer: illustrations and some texts are copied from internet sources that are publicly available. All sources have been mentioned. If there are claims about the copy rights of these sources, please send an email to asc@asc.leidenuniv.nl, and, if requested, those illustrations will be removed from the next version of the working paper concerned.

About the APH paper series

The intention of the APH series is to make information about the philatelic and postal history of Africa available for fellow philatelists, and for others who are interested in the political, economic, and cultural history of Africa. Most APH papers so far present an inventory of postage (and revenue) stamps of former colonies, and the aim is to be as complete as possible for stamps as such, and with special attention for covers and other elements of postal history, which can give historical information about postal communication, and about visual information through postal media. In addition it is the intention to be as complete as possible about postmarks, which show the history of postal coverage of colonial (and post-colonial) territories. Most information comes from websites. The APH papers are 'work in progress', and additional information plus corrections are welcome and can be added in future editions.

Organization of this APH paper: we follow a chronological order, and for each series of postage stamps we start with the collection of Vincent Prange, followed by additional illustrations that could be found online and in some publications. At the end we specifically deal with postmarks used in Italian East Africa between 1936 and 1941.

1 Introduction: Italian East Africa, 1935-1941

“Italian East Africa was formed in 1936 by combining the Ethiopian Empire with Italian Eritrea and Italian Somaliland. Ethiopia was added to the dominion after the Fascist Mussolini Italian Forces defeated Haile Selassie and the Ethiopians in the Second Italo-Abyssinian War. Italy's Fascist regime wished to colonize the territory with Italian farmer citizens. But few went to Ethiopia, most went to Eritrea. The Capitals were Addis Ababa (Ethiopia) and Asmara (Eritrea), and the population was 10,000,000 (1936). In 1940, British Somaliland was occupied, and added to Italian East Africa. This one-year occupation was the only victory by Italy against allied forces that did not require assistance of German troops”

“Italian East Africa was located in eastern Africa. In 1936, Italian East Africa was formed from the three Italian possessions in the Horn of Africa: Italian Eritrea, Italian Ethiopia and Italian Somaliland. Only having become a united kingdom in 1861, Italy is late to have joined the European powers in the race for colonies. In the late 1860s and the 1870s, Italy established a presence in Eritrea and Somaliland. Eritrea becomes an Italian protectorate in 1888 and an Italian colony in 1890. Somaliland follows suit, becoming a protectorate in 1889 and a colony in 1905. Italian ambitions in the 19th century to colonize Ethiopia are thwarted when, in 1896, the Italians were defeated decisively by Ethiopia. The ambition to colonize Ethiopia was revived under the fascist regime of Benito Mussolini. Italy, in 1935, again invaded Ethiopia and this time Italy comes out victorious. In May 1936, Ethiopia was annexed as an Italian colony. The Italian king, Victor Emanuel, assumed the title emperor of Ethiopia and appointed a viceroy to administer the colony.

Italian East Africa was formed shortly after the annexation of Ethiopia in June 1936. The viceroy of Ethiopia was appointed governor general to whom the governors of the 6 governates, into which Italian East Africa was divided, report. The borders of the governates of Eritrea and Somalia were adjusted, when compared to the colonial borders, in order to establish ethnically more homogeneous governates”. 2 Postage stamps A.O.I.

2.1: Introduction

In 1935 Italy conquered Ethiopia, and in 1936 the three Italian areas (Etiopia, Eritrea and Somalia) were grouped together to form A.O.I, and first used stamps from Somalia and Eritrea, then (in 1937) stamps were made for 'Etiopia', and from 1938 until 1941 for Africa Orientale Italiana or A.O.I. (Revenue stamps started to be used from 1936 onwards). During those years also existing stamps from Somalia and Eritrea have been used in the various parts of AOI. A.O.I. consisted of six 'Gobernorates': Eritrea, Somalia, Scioa, Harar, Amara and Galla e Sidama, and the areas of Eritrea and Somalia were bigger than the areas before 1936 (and after 1941).

For the first stamps of AOI a few proofs were made; e.g. by the famous Italian designer Cisari, as well as designs for stamps with Mussolini's sculpture in the mountains of Samré, in Ethiopia.

Filitalia 21/1, February 2018, p. 3: proofs; later the airmail values would be 50c, 1.50L, and 10L. One can assume that low values (like 10c) would have made the Duce very angry.

S: FM 1-2

"Military Allowance Stamps. Two types were printed locally by the Special Printing Company of the General Government of the A.O.I. in Addis Ababa. They were not issued because of the wartime events, and almost all of the printing was incinerated. A green version was intended for destinations within the A.O.I., with a red version for elsewhere in the Italian area". http://www.italianstamps.co.uk/colonies/aoi/index.html

https://www.partenophil.com/wp-content/uploads/2017/08/AOI-n.-1-2-001.jpg

These stamps had been printed by the (Italian controlled) government printers in Addis Ababa. The red stamp was meant for correspondence outside A.O.I., and the green one form correspondence within A.O.I. However, these stamps could never be used there, because before they could be used, Addis Ababa was conquered by British troops in May 1942. Most of it was destroyed (burned), but some stamps escaped that destruction….

SORANI
VIA WASHINGTON, 74 - MILANO

16 agosto 2014.

SOMALIA ITALIANA: 1936 (settembre), Pittorica, 15 centesimi, oliva, dentellatura 14, usato isolatamente come francobollo per Recapito Autorizzato su avviso della Banca Nazionale del Lavoro di Asmara (Eritrea) diretto in città ed annullato col bollo amministrativo in cartella della Banca in data 22 Aprile 1938; l'eccezionale uso in Eritrea di un francobollo ordinario di Somalia, in eccesso di 5 centesimi, si rese necessario in quanto all'epoca non erano ancora stati preparati gli speciali francobolli per il recapito autorizzato (Sass. N. 216).

Abbiamo esaminato l'avviso sopra descritto del quale abbiamo unito una riproduzione fotografica al presente Certificato.

A nostro parere l'avviso, documento commerciale di notevole rarità ed interesse storico-postale essendo il solo a noi noto con questo francobollo, è originale, ha annullo originale, il francobollo è perfetto e pertanto è stato firmato.* *

Asmara - Mixed Franking

September 24, 1939 - 2.75 Lira airmail rate from Asmara to Italy

Mixed franking from Asmara is unusual but not rare . Note the date on the cancellation shows the year in two digits instead of four and like so many other postmarks denotes the year of Faciast rule in Roman numerals (in this case XVII) .

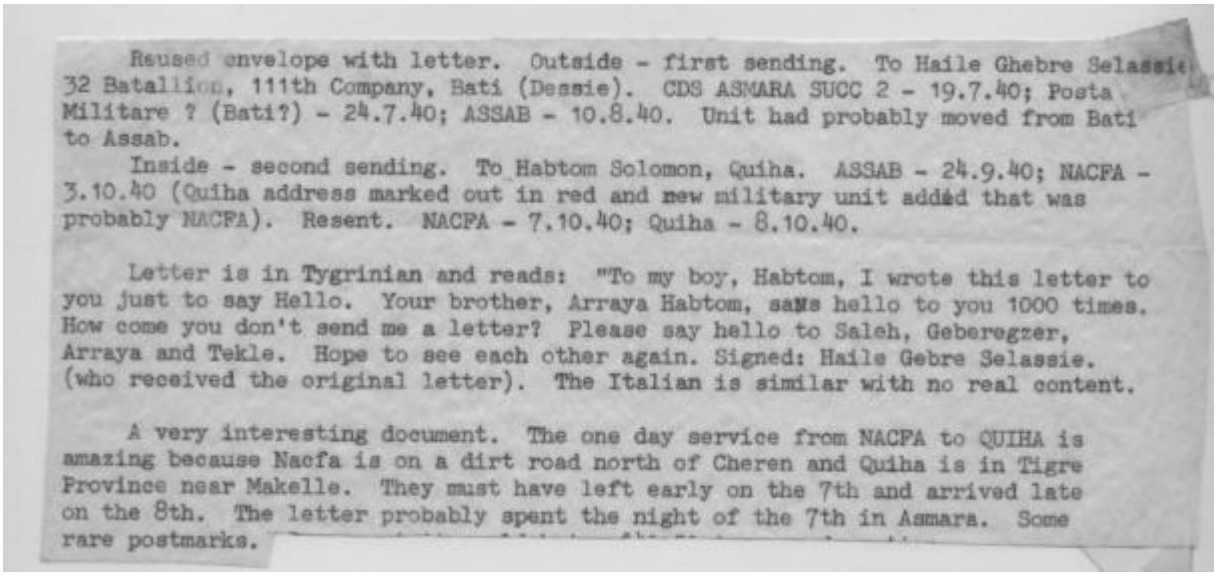
http://forum.aicpm.net/download/file.php?id=8268&t=1&sid=81fab81145ff490bb8a566f837750410



Reused envelope with letter. Outside - first sending. To Haile Ghebre Selassie, 32 Batallion, 111th Company, Bati (Dessie). CDS ASMARA SUCC 2 - 19.7.40; Posta Militare ? (Bati?) - 24.7.40; ASSAB - 10.8.40. Unit had probably moved from Bati to Assab.

Inside - second sending. To Habtom Solomon, Quiha. ASSAB - 24.9.40; NACFA - 3.10.40 (Quiha address marked out in red and new military unit added that was probably NACFA). Resent. NACFA - 7.10.40; Quiha - 8.10.40.

Letter is in Tygrinian and reads: "To my boy, Habtom, I wrote this letter to you just to say Hello. Your brother, Arraya Habtom, says hello to you 1000 times. How come you don't send me a letter? Please say hello to Saleh, Geberegzer, Arraya and Tekle. Hope to see each other again. Signed: Haile Gebre Selassie. (who received the original letter). The Italian is similar with no real content.

A very interesting document. The one day service from NACFA to QUIHA is amazing because Nacfa is on a dirt road north of Cheren and Quiha is in Tigre Province near Makelle. They must have left early on the 7th and arrived late on the 8th. The letter probably spent the night of the 7th in Asmara. Some rare postmarks.

ETIOPIA: 1936, 10 centesimi, bruno giallo, usato isolatamente su busta indirizzata a Mogadiscio ed annullato col bollo circolare "Lugh Ferrandi/Somalia Italiana - 23/9/1937"; il bollo è di tipo diverso da quelli noti in quanto la dicitura "Somalia Italiana" non è racchiusa tra parentesi (Sass. Abbiamo esaminato la busta sopra descritta della quale abbiamo unito una riproduzione fotografica al presente Certificato.

A nostro parere la busta, con il suo pregevole annullo, è originale, il francobollo è perfetto e pertanto è stata firmata. **********

Sono riuscito a recuperare un timbro che mi era servito per farmi un piccolo catalogo personale degli annulli della Somalia. Purtroppo alcuni dei timbri inseriti non li ho più con me e quindi non ne posso affermare categoricamente l'esistenza, ma per Sassabanech, affermare che il timbro SASSABANEG sia un' invenzione, mi pare di essere nel vero. Se esistesse davvero, perché non pubblicarne l'esistenza e risolvere il caso? Qualcuno dovrebbe pur avercelo. Il Sig. Bianchi, che io non conosco, o chi per lui, potrebbe intervenire dicendoci da dove sia stato ricavato. Il timbro qui riportato oltre a quelli già inseriti in questo stesso Forum, dovrebbe cancellare ogni dubbio. Infatti è proprio uguale a quello pubblicato nel nostro catalogo a pagina 444. Notare anche, tra l'altro, le pance della "B" uguali e non la più bassa che sporge leggermente nell'altro del 7/6/37. In conclusione i timbri sono due e non uno e la prima data d'uso da me conosciuta è del 24.5.37 che sposta di due settimane la data finora catalogata”. Response: “Mi sembra ormai accettato da tutti che la riproduzione del bollo di Sassabanech pubblicata da Bianchi e ripresa dal libro dell'AICPM fosse sbagliata e che non esiste alcun timbro SASSABANEGH. Credo che questo errore (e qualunque altro che verrà segnalato) sarà certamente corretto con l'uscita del secondo volume e del catalogo dei bolli. Penso perciò che si possa considerare chiuso questo argomento, cui forse abbiamo dato un po' troppa importanza”.

http://forum.aicpm.net/download/file.php?id=5034&t=1: “Ieri ho ricevuto il catalogo d'Asta Viennafil Area Italiana e al lotto 2285 compare questa lettera del 9 Ottobre 1937 da SASSABANECH SOMALIA per MOGADISCIO, affrancata con il valore di Etiopia da 10 cent. giallo/bruno ed ho voluto postarla esclusivamente come confronto. Nell'annullo si legge chiaramente SASSABANECH ma sia sulla lettera (scritto a matita in alto a sinistra) che nel commento alla lettera viene indicato SASSABANEGH, probabilmente anche i curatori del catalogo hanno ancora il sopracitato dubbio, che da il titolo al post. Distinti saluti Marangoni Riccardo”. Response: “Sono andato a vedere sul catalogo d'asta ed il timbro mi pare uguale a quello mio. Se si osserva con una lente d'ingrandimento si noterà facilmente che il timbro sul francobollo, riportato in modo più marcato, ha la "C" finale e non la"G". A colpo d'occhio la gamba destra della "A" di "ITALIANE" sembrerebbe fare della "C" una "G. Forse il Bianchi nel suo catalogo ha usato tale busta per riprodurre (a pag. 210) l'mpronta di tale timbro, che porta la data del 9.10.37 come prima data da lui conosciuta E, se si osserva bene, il timbro riprodotto è stato aggiustato alquanto nelle stellette e soprattutto nella "B". Personalmente non ho contatti con tale asta, altrimenti interverrei, perché il valore del documento lo ritengo di gran lunga superiore al prezzo indicato. Grazie infinite per l'intervento e speriamo che altri si facciano vivi. Cordialmente Michele Mainenti.”.

Moscardelli, approfitto della sua cortese disponibilità per chiedere alcune informazioni circa il francobollo per l'Eritrea da 10 cent. usato riportante la soprastampa su tre righe: ITALIA ADDIS ABEBA 1936 MAGGIO A XIV di cui allego la scansione. Inanzittutto volevo chiedere se la soprastampa è ufficiale e a cosa si riferisce. Faccio presente che la data dell'annullo è il 22.02.1937. Quindi vorrei chiedere se tale soprastampa conferisce al francobollo un plus valore rispetto al francobollo normale”.

https://www.ilpostalista.it/consul/imm/683.JPG: “la soprastampa sul suo francobollo dell’Eritrea dovrebbe essere una ristampa privata locale con impronta in gomma per commemorare (?) il 5 maggio 1936, anno XIV, quando le forze italiane capitanate da Badoglio entrarono in Addis Abeba e conquistarono l’intero Impero etiopico. Furono fatte sia con inchiostro nero violaceo che rosso. Con una legge apposita il possedimento fu chiamato “Africa Orientale Italiana” (A.O.I.). I francobolli di quel tipo erano già fuori corso dal 1°agosto del 1934 per cui le rimanenze furono usate per tale soprastampa. I valori sciolti non hanno una loro valutazione ma su documento sono rari. Qualche soldato italiano la usò per inviare della posta, forse un filatelico anche in questo caso! In allegato la testata del Corriere della Sera del 6 maggio 1936 che annuncia l’avvenimento in prima pagina. (foto)”.

Visto il luogo di spedizione non gli avevo mai dato tanto peso. Poi l'occhio mi è caduto sulla data : 10/6/1940. Eccoci qua, ma guarda ho pensato , proprio il giorno della entrata in guerra. A questo punto mi è preso la voglia di vedere lo scrivente, un militare che nel 38 scriveva, ho un'altra sua busta, da Oletta (Addis Abeba). Giro la busta e vedo che il tenente si designa con T.8.307...che vuol dire? Mi sono andato a vedere il catalogo Marchese della 2 g.m. ed ecco lì la fantastica spiegazione: il mittente usa un cifrario convenzionale per indicare il Governo regionale (in questo caso la T sta per lo Scioà), il secondo numero il Presidio, il terzo il reparto. E' personalmente la prima volta che vedo l'applicazione della regola convenzionale provvisoria di PM dall' AOI; Marchese dice che a fine giugno arrivarono i timbri definitivi; lo scacchiere T divenne posta militare 1 e poi 1001. Marchese rammenta che Ala Littoria sospese i voli e che nel giugno 1940 ne furono effettuati solo 7 da Lati". Airmail letter to Italy. A questo punto la missiva è stata reindirizzata a destino, dove all'arrivo è stato apposto il guller della P.M.47 in data 1 Settembre 1940. Oltre queste particolarità, la busta presenta in basso a sinistra un strano annullo lineare in inchiostro violetto, probabilmente eseguito con un tampone? di dimensioni notevoli NO 3I G.A.F. o NO 31 G.A.F. che non ho mai visto. Answer in 2019: “non riesco a leggere il numero della PM e quindi non si capisce se una PM di stanza a Belet Uen, ma il relativo timbro potrebbe essere quello di arrivo. In questo caso il timbro TS e' stato ignorato. http://forum.aicpm.net/download/file.php?id=30913&t=1: “posto questa franchigia di sottotenente che al 30/10/36 era con la Banda Irregolare di Debra Tabor”.. Additional information: “da Wikipedia: La banda era un tipo di unità militare irregolare delle forze armate del Regno d'Italia composta da stranieri e nativi coloniali impiegati come truppe ausiliarie delle forze regolari nazionali e coloniali, e comandati da ufficiali e sottufficiali italiani. La banda era approssimativamente un'unità delle dimensioni di una compagnia (100-200 uomini). L'unità superiore, delle dimensioni normalmente di battaglione (ma a volte un pieno reggimento o brigata), era il "gruppo bande" (fanteria) o il "gruppo squadroni" (cavalleria). In quanto irregolari armati, le bande erano in grado di svolgere compiti per i quali le forze regolari erano inadatte, e ad un costo economico (ma anche politico) enormemente più basso. Diverso invece inquadramento e ruolo dei battaglioni coloniali. I Regi corpi truppe coloniali erano dei corpi delle forze armate del Regno d'Italia nei quali vennero raggruppate tutte le truppe di ogni colonia, fino alla fine della seconda guerra mondiale in Africa. Tutti gli Ufficiali erano nazionali del Regio Esercito, i sottufficiali erano sia nazionali che indigeni, mentre la truppa era nella quasi totalità composta da eritrei, somali, etiopi, libici ed in piccola parte yemeniti e sudanesi. Nella campagna di conquista dell'Etiopia il Regio corpo truppe coloniali d'Eritrea fornì un intero Corpo d'armata eritreo. Nel 1940 erano presenti 182.000 ascari nell'Africa Orientale Italiana e 68.000 nazionali, mentre 74.000 ascari erano di stanza in Libia durante la seconda guerra mondiale”. L'incrociatore, ex Pillau tedesco che nella prima guerra mondiale era nei mari del nord e ci fu ceduto con la fine di quella guerra (1920), rimase in colonia per tutta la durata della guerra d'Etiopia. Interessante la storia di questa nave:

https://it.wikipedia.org/wiki/Bari_(incrociatore): Durante la guerra d'Etiopia, la nave venne nuovamente dislocata in Mar Rosso (dove trasportò anche l'allora tenente di vascello Carlo Fecia di Cossato, diretto a Massaua per assumere il comando delle difese del porto. Nel 1935 il Bari, ancora al comando del capitano di vascello Pardo (poi sostituito dal parigrado Giuseppe Lombardi), era la nave di bandiera dell'ammiraglio di divisione Vannutelli, comandante della Divisione Navale in Africa Orientale, che comprendeva anche Taranto, Tigre, Pantera, Audace, i cacciatorpediniere Francesco Nullo e Daniele Manin ed i sommergibili Luigi Settembrini e Ruggiero Settimo. Nel 1936 il comando della Divisione passò all'ammiraglio di divisione Vittorio Tur, sempre imbarcato sul Bari, e la sua composizione mutò con l'aggiunta delle torpediniere Giacinto Carini e Generale Antonio Cantore, dei sommergibili Tricheco, Narvalo, Serpente e Salpa, delle navi appoggio sommergibili Antonio Pacinotti ed Alessandro Volta, della nave ausiliaria Arborea e di quattro MAS. L'equipaggio dell'incrociatore partecipò anche alla costruzione delle postazioni difensive delle Isole Dahlak. Il Bari rimase alle dipendenze del Comando Superiore Navale Africa Orientale Italiana sino al maggio 1938, quando, rilevato dalla nave coloniale Eritrea, rientrò in Italia per nuovi lavori". Posta Militare 1067

http://forum.aicpm.net/download/file.php?id=201&t=1, and http://forum.aicpm.net/download/file.php?id=202&t=1: "…Si tratta di una raccomandata di servizio spedita all'Uff. Sussidi Militari del Comune di Milano. Al recto sul talloncino di raccomandazione (giustamente con numero pari) vi è manoscritto l'indicazione: Post. Mil. 1067; lo stesso è annullato con il timbro frazionario: 83/8. Al verso (in transito) il bollo: UFFICIO POSTALE -C-1002/A.O. (20.12.40) ed i bolli d'arrivo (entrambi in data 22.1.41): Milano Raccomandate. Arr. Distrib./(E) e Milano Ferr. Corrisp./Rep. Racc. E' in buona sostanza una raccomandata spedita dall'Ufficio PM 1067 che, secondo il Marchese assegnato al Cdo Scacchiere Nord, operò dal luglio 40 fino ai primi giorni di aprile 1941 nella zona di Cheren. Cecchi e Cadioli (La Posta Militare Italiana nella Seconda Guerra Mondiale, SME) riportano che un telegramma del Governo generale dell'A.O.I., datato 14.7.40, riferisce dell'istituzione di 4 nuovi Uffici PM e fra questi il 67, successivamente rinominato 1067, dislocato a Cheren. Nello stesso volume si indica anche come data di chiusura il marzo 1941 nella località di Cheren seguita da punto interrogativo. Le fonti concordano nell'individuare come dislocazione Cheren o la zona di Cheren.La documentazione sotto riproposta sembrerebbe contraddire le fonti". Response: "E' sufficiente questo indizio per dire che l'Ufficio PM 67/1067 non era dislocato a Cheren ma, bensì, ad Agordat? Oppure che in quest'ultima località era semplicemente di guarnigione il XXV Gruppo Cannoni e che, per comodità e/o sicurezza, si preferiva inoltrare la corrispondenza tramite questo ufficio civile, essendo l'Ufficio PM 1067 a circa 200 Km di distanza e con le truppe britanniche in rapida avanzata proprio nello stesso scacchiere? Propendo per la seconda ipotesi: mi risulta fosse frequente che un reparto che dipendeva, per quanto riguarda i servizi di postali, da un determinato ufficio appoggiasse la sua corrisponenza ad un altro ufficio più vicino e/o comodo. Del resto, se l'ufficio fosse stato fisicamente ad Agordat, avrebbe utilizzato il regolare bollo a data". Registered card with postmark Post. Milit. 1067, sent from Cheren on 20.12.1940.

Purtroppo non è mio, lo persi in un'asta di alcuni anni fa, ma credo sia un documento nient'affatto comune. Forse la posta militare 1111 non era proprio in Somalia, sembra che fosse ai confini con l'Etiopia". Postmark Posta Militare 1111, 1941.

4 British Occupation Italian East Africa, 1941

"Upon the outbreak of WWII in 1940, Italy, from Italian East Africa, invaded British Somaliland which it would occupy and annex to Italian East Africa until 1941. The British were quick to respond. In 1940, the East Africa Campaign is launched, and by 1941 the Italian administration of Italian East Africa capitulated. Pockets of Italian resistance continued to exist until 1943, when Italy capitulated also in the European theatre of war. Italy would de jure cede its colonial possessions in 1947 at the peace treaty following the end of WWII.

The British established military administration in the occupied territories of Italian East Africa. Ethiopia was largely restored to its sovereignty in 1942 – parts being under British administration until 1948 and 1954 respectively. Eritrea would, in 1952, be federated with Ethiopia. Outright annexation of Eritrea in 1962 sparked a war of independence that, after three decades, would lead to a de facto independent Eritrea in 1991 – the de jure recognition followed in 1993. The administration of the former Italian Somaliland was, in 1950, transferred back to Italy – now as the United Nations trust territory of Somalia. In 1960, Somalia gained independence and joined with British Somaliland, thus forming the republic of Somalia". 6 A Note on Sources

Sources for this APH paper have been diverse. A lot of valuable information could be found in Filitalia, the journal of the Dutch philatelists dealing with Italy and its colonies and areas. And on the fabulous website of the AICPM: http://forum.aicpm.net/.

We particularly like to thank Riccardo Marangoni for his input in the AICPM forum.

Other sources have been more general ones (like Ebay, Wikimedia, Piccklick, and Blogspot), and specific philatelic websites, like
