Financial support by the Dutch Heart Foundation for the publication of this thesis is gratefully acknowledged.

MijnKliniek, wetenschapsfonds HagaZiekenhuis, Vaatchirurgie LUMC, Krijnen Medical and Chipsoft are also gratefully acknowledged for their financial support for this thesis.

Maximal Systolic Acceleration in atherosclerotic vascular disease

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof.dr.ir. H. Bijl,
volgens besluit van het college voor promoties
te verdedigen op donderdag 16 februari 2023
klokke 16.15 uur

door

Jeroen Johannes Wilhelmus Maria Brouwers
geboren te Eindhoven
in 1988

Promotor

Prof. dr. J.F. Hamming

Copromotor

Dr. A. Schepers

Leden promotiecommissie

Prof. dr. P.H.A. Quax

Prof. dr. F.A. Klok

Prof. dr. M.A. van Buchem

Prof. dr. H.J.M. Verhagen (Erasmus MC)

Dr. E.S. van Hattum (UMC Utrecht)

Table of Contents

Chapter 1	Introduction and outline of this thesis	8
Part I	Peripheral arterial disease of the lower extremity	28
Chapter 2	Reliability of bedside tests for diagnosing peripheral arterial disease in patients prone to medial arterial calcification: a systematic review <i>The Lancet – eClinicalMedicine. 2022 Jul.</i>	30
Chapter 3	Using maximal systolic acceleration to diagnose and assess the severity of peripheral artery disease in a flow model study <i>J Vasc Surg. 2020 Jan.</i>	74
Chapter 4	Doppler ultrasonography Derived maximal systolic acceleration: value determination with artificially induced stenosis <i>Vasc Endovascular Surg. 2022 Mar.</i>	92
Part II	Carotid artery stenosis	108
Chapter 5	A new Doppler-derived parameter to quantify internal carotid artery stenosis: maximal systolic acceleration <i>Ann Vasc Surg. 2021 nov.</i>	110
Chapter 6	Imaging assessment of carotid artery stenosis varies in clinical practice Full manuscript, based on <i>Brouwers JJWM et al. Imaging Assessment of Carotid Artery Stenosis Varies in Clinical Practice (Research letter).</i> <i>Eur J Vasc Endovasc Surg. 2020 Oct.</i>	128
Part III	Renal artery stenosis	140
Chapter 7	The use of intrarenal Doppler ultrasonography as predictor for positive outcome after renal artery revascularization <i>Vascular. 2017 Feb.</i>	142

Part IV	General discussion, future perspectives, summary and appendices	162
Chapter 8	General discussion and future perspectives	164
Chapter 9	Summary	176
	Dutch summary (Nederlandse samenvatting)	184
Appendices	List of publications	194
	Curriculum vitae	196
	Dankwoord	197
	Abbreviations	200
