ACKNOWLEDGEMENTS

Undertaking this PhD has been a truly life-changing experience for me and it would not have been possible to do without the support and guidance that I received from many people that I owe much.

Dear Mark, saying thank you just doesn't seem to be enough now that you've helped me complete this journey. I am so thankful for your supervision, encouragement and motivation.

Dear Lenore, thank you for all the discussions and guidance throughout the years. Thanks for always being available to help and give me feedback.

Dear Vilmundur. I do not have strong enough words to thank you for everything you have done for me in my work and studies. I thank you for the trust you have always shown me, the opportunities you have given me, the encouragement in the field of science and the friendship. Thanks for always taking the time to give good advice and your super quality to point out what really matters.

Dear Thor. Special thanks to you. Not only for the invaluable help with statistics and methodology, but also for the friendship, uplifting dialogue, humor and endless positivity.

Dear Lars and Alex. You were an integral part of the methodology applied in the neuro part of the AGES-Reykjavik Study and "responsible" for its success. Thank you for your insights, scientific expertise and help with generating top-notch high quality data.

Dear Thijs. It was such an honor for me to work under your supervision on the pCASL study. Thank you so much for all your intelligent comments and help with the study design and the paper.

I would like to thank all my co-authors from the AGES-Reykjavik Study for their input and collaboration. Special thanks to Guðný, Jennifer, Marianna and Lars.

Sincere gratitude to excellent colleagues and other employees of Hjartavernd over the years, Bryndís, Gyða, Heiða, Halla, Guðlaug, Ólafur Kj, Róbert, Ólafur Ey, Sigurbjörg, Elías, Heimir, Lilja Petra, Steinar, Björn og þið öll hin.

Dear family, Guðrún, Kata, Nói and Mamma. Thank you for your love and support all through my work and studies.

Finally, I am deeply grateful to the AGES-Reykjavik Study participants. The enormous wealth of information and knowledge provided is first and foremost owed to the willingness of the participants to participate.

CURRICULUM VITAE

Sigurður Sigurðsson was born in Reykjavik, Iceland on May 4th, 1970. After finishing high School at the College of Menntaskólinn við Sund he started his Radiography studies at the Technical University of Iceland in 1990 and graduated with a BSc degree in Radiography in 1994. He worked as a Radiographer at the University Hospital of Iceland from 1994-1996. In 1996 he started his training in clinical Magnetic Resonance Imaging (MRI) at South Bank University in London, UK and at the MRI facilities in Guy´s and St´ Thomas Hospital Trust in London, UK. In 1998 he received a post-graduate diploma in Radiography following his studies at South Bank University and his MSc degree in clinical MRI at the same University in year 2000. From year 1998 to 2002 he worked as a Radiographer at the MRI facility in the University Hospital of Norway (Rikshospitalet) in Oslo. In year 2002 he was employed at the Icelandic Heart Association Research Institute as a Head of the imaging department in conjunction with the AGES-Reykjavik Study and other imaging research studies. In year 2012 he started his PhD research project under the supervision of Prof. Mark van Buchem MD, PhD (Leiden University Medical Center, the Netherlands) and Dr. Lenore Launer PhD (National Institute on Aging, National Institute of Health NIA/NIH, Bethesda, USA)). From year 2017 to date he has worked as the CEO and co-owner of the Icelandic Heart Association Radiology. He has been a part time lecturer at the University of Iceland, Faculty of Medicine, from year 2002 to date.
