Proefschrift

ter verkrijging van

de graad van doctor aan de Universiteit Leiden,  
op gezag van rector magnificus prof.dr.ir. H. Bijl,  
volgens besluit van het college voor promoties  
te verdedigen op donderdag 2 maart 2023

klokke 13:45 uur

door

**Chenguang Gao**

geboren te Henan province, China

in 1994

**PROMOTORES:**

Prof. dr. P. M. van Bodegom

Prof. dr. N. A. Soudzilovskaia

**PROMOTIECOMMISSIE:**

Prof. dr. J.C. Biesmeijer

Prof. dr. J.H.C. Cornelissen (Vrije Universiteit Amsterdam)

Dr. S.E. Hannula

Dr. M.J.J. Schrama

Prof. dr. R. van Diggelen ( Universiteit Antwerpen)

Prof. dr. ing. M.G. Vijver

## **Contents**

|  |            |
|--|------------|
| <b>Chapter 1</b> .....   | <b>1</b>   |
| General Introduction   |            |
| <b>Chapter 2</b> .....   | <b>17</b>  |
| Shifts in soil community influence the establishment of arbuscular<br>mycorrhizal fungi  |            |
| <b>Chapter 3</b> .....   | <b>37</b>  |
| Soil biota adversely affect the resistance and recovery of plant communities<br>subjected to drought                             |            |
| <b>Chapter 4</b> .....   | <b>63</b>  |
| Plant community responses to alterations in soil abiotic and biotic<br>conditions is decoupled for above- and belowground traits |            |
| <b>Chapter 5</b> .....   | <b>87</b>  |
| Soil microbes are more “passenger” of plant community dynamic in early<br>ecosystem  |            |
| <b>Chapter 6</b> .....   | <b>113</b> |
| General discussion   |            |
| <b>References</b> .....  | <b>125</b> |
| <b>Summary</b> .....   | <b>145</b> |
| <b>Samenvatting</b> .....  | <b>148</b> |
| <b>List of Publications</b> .....  | <b>151</b> |
| <b>Acknowledgements</b> .....  | <b>153</b> |
