Acknowledgements

More people than I can adequately thank have contributed to this dissertation coming into being. I am immensely grateful to my two supervisors, Cátia Antunes and Karwan Fatah-Black, for their support, encouragement, and endless patience, even when I would seemingly disappear for months and then emerge with a sixty-page monstrosity of a chapter. Cátia, thank you for going above and beyond in looking out for me not just as an academic, but as a person. Your thoughtfulness in everything you do amazes me, from picking apart an argument and challenging my ideas without pushing me in any one direction to hosting dinner parties, and I am so grateful to have you in my corner. Karwan, your thoughtful feedback and inspiring suggestions often provided just the nudge I needed to strengthen my work and explore possibilities I never would have thought of. My thanks also go out to the members of my committee for their careful reading of my manuscript and their insightful comments.

It has been a delight working with so many great people over the years. I am grateful to the entire *Resilient Diversity* team for the many thought-provoking discussions and their feedback on my drafts. It was a pleasure working together with Matthias, Elisabeth, Alexander, Rafaël, and later Camilla and Maartje on the court case indexes. Starting out in 2017 and not having much experience with paleography, I learned so much from working with Eli, Alex, and Rafaël and was grateful to share the struggles of deciphering what often seemed to be the scribbles of a possibly-drunk, underpaid Batavian court scribe. Eli, I couldn't have asked for a better writing and editing partner: in our joint projects you somehow manage to keep us on track, on point, and sane in the face of stress.

I would also like to thank the many iterations of 'Team Catia' for their inspiring work, interesting conversations, and thoughtful comments throughout the years, and the same applies to the many other colleagues at Leiden University I have crossed paths with. A special shout-out goes to Gerhard de Kok, whom I don't know very well, but whose search engine for Dutch colonial archives proved a godsend in the final years of writing my dissertation. There are many others without whom I would have had considerably more difficulty finding the sources that I did, such as the helpful people working at the Arsip Nasional in Jakarta and the Nationaal Archief in the Hague, as well as the student assistants of the Resilient Diversity project and those who had done prior work on court cases from Suriname and Cochin. Finally, The PhD graduate training and the many trips that came out of it would not have been nearly as fun without the companionship of the 'Old Boys Club'.

I would not be where I am today without the love and support of friends and family. From the Food Party People, climbing crews, and the Chicago extended Household to my fabulous paranympths Suus and Juud and other old SGS friends: thanks for helping me *not* think about my dissertation when I needed to at various points throughout the years.

En waar zou ik zijn zonder mijn geweldig lieve en leuke tantes en ooms, neven en nichten, die er altijd zijn om iets te vieren én als het tegen zit. Het overlijden van mijn vader Andreas (die nu ongetwijfeld als de beste had mee gefeest) was een groot verlies, maar lieve mama: jij telt voor tien. Ik prijs me gelukkig dat ik in zo'n fijn, relaxed gezin ben opgegroeid met ouders die me in alles steunden en een broer die alleen ruzie maakte als het om een potje Kolonisten ging.

I am also fortunate to have gained some wonderful in-laws in recent years: Carol, Deb, John, Jojo, I am so happy to call you family. My final thanks goes to my one and only Alex Baggett, who moved across the world for me, makes me laugh every day, and listens to me vent about work while he makes the best tacos in the Netherlands. You have made these past years which could have been very tough into some of the best of my life.
