THE INPUT PATHWAYS TO THE CIRCADIAN CLOCK: FROM NOCTURNALITY TO DIURNALITY

Robin Schoonderwoerd

Cover design by Robin Schoonderwoerd and Olaf Roosjen.
PhD thesis, Leiden University Medical Center, The Netherlands.
ISBN: 978-94-6483-049-1
Printed by Ridderprint, <https://www.ridderprint.nl/>

This research was financially supported by Velux Stiftung (Zurich, Switzerland) Project number 1131).

THE INPUT PATHWAYS TO THE CIRCADIAN CLOCK: FROM NOCTURNALITY TO DIURNALITY

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof.dr.ir. H. Bijl,
volgens besluit van het college voor promoties
te verdedigen op dinsdag 16 mei 2023
klokke 15.00 uur

door

Robin Anna Schoonderwoerd

geboren te Haarlem
in 1994

Promotor:

Prof.dr. J.H. Meijer

Co-promotors:

Dr. T. de Boer

Dr. S.H. Michel

Promotiecommissie:

Prof.dr.ir. M.J.P. van Osch

Prof.dr. D.F. Swaab

- *Department of Neuropsychiatric Disorders, Netherlands Institute for Neuroscience*

Dr. N. Antypa

- *Faculty of Social Sciences, University Leiden*

Prof.dr. S. Brown

- *Chronobiology and Sleep Research, University of Zurich*

Table of contents

Chapter 1	General Introduction: Diurnality and the mammalian biological clock network	7
Chapter 2	Distinct contribution of cone photoreceptor subtypes to the mammalian biological clock <i>Published in Proc Natl Acad Sci U S A. 2021;118(22):e2024500118.</i>	61
Chapter 3	Sleep deprivation does not change the flash electroretinogram in wildtype and <i>Opn4^{-/-}Gnat1^{-/-}</i> mice <i>Published in J Biol Rhythms. 2022 Apr;37(2):216-221.</i>	85
Chapter 4	The photobiology of the human circadian clock <i>Published in Proc Natl Acad Sci U S A. 2022;119(13):e2118803119.</i>	95
Chapter 5	Inhibitory responses to retinohypothalamic tract stimulation in the circadian clock of the diurnal rodent <i>Rhabdomys pumilio</i> <i>Published in FASEB J. 2022 Aug;36(8):e22415.</i>	119
Chapter 6	Behavioural activity excites the circadian clock of the day-active rodent <i>Arvicanthis ansorgei</i> <i>Submitted to BioRxiv and Curr Biol.</i>	143
Chapter 7	A circadian phase shifting phenomenon: a burst of locomotion at the unshifted phase <i>To be submitted to J Biol Rhythms.</i>	159
Chapter 8	General discussion	177
	Summary	189
	Samenvatting	191
	Dankwoord	194
	List of Publications	195
	Curriculum Vitae	197
