Scheduled Protocol Programming

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof.dr.ir. H. Bijl,
volgens besluit van het college voor promoties
te verdedigen op woensdag 24 mei 2023
klokke 11:15 uur

door

Klaas Pieter Cornelis Dokter
geboren te Putten
in 1990

Promotores

prof. dr. F. Arbab
prof. dr. M.M. Bonsangue

Promotiecommissie

prof. dr. C. Baier	Technische Universität Dresden
prof. dr. H.C.M. Kleijn	
prof. dr. J.C. van de Pol	Aarhus University
prof. dr. A. Plaat	
prof. dr. F.J. Verbeek	

The work in this thesis has been carried out at CWI (Centrum Wiskunde & Informatica) and Universiteit Leiden, under the auspices of the research school IPA (Institute for Programming research and Algorithmics).

Contents

1 Introduction **7**
1.1 Context . . . 7
1.2 Problem . . . 8
1.3 Related work . . . 10
1.4 Contributions . . . 11

I Coordination **17**

2 Coordination Languages **19**
2.1 Overview of BIP and Reo . . . 20
2.2 Port automata and BIP architectures . . . 29
2.3 Stateless CA's and interaction models . . . 38
2.4 Data-sensitive BIP architectures . . . 43
2.5 Related work . . . 53
2.6 Discussion . . . 54

3 Protocols with Preferences **57**
3.1 Preliminaries on soft constraints . . . 58
3.2 Soft constraint automata with memory . . . 65
3.3 Case study . . . 72
3.4 Application to context-sensitivity . . . 75
3.5 Related work on constraint automata . . . 77
3.6 Discussion . . . 79

II Compilation **81**

4 Protocol Syntax **83**
4.1 Treo syntax . . . 85
4.2 Semantic sorts . . . 88
4.3 Denotational semantics . . . 90
4.4 Input/output nodes . . . 94
4.5 Related work . . . 96
4.6 Discussion . . . 96

5 Protocols as Constraints **99**
5.1 Related work . . . 100
5.2 Syntax and semantics . . . 101
5.3 Regular constraints . . . 103
5.4 Reflexive constraints . . . 105
5.5 Rule-based form . . . 107
5.6 Composition . . . 109
5.7 Complexity . . . 112
5.8 Abstraction . . . 114
5.9 Application . . . 115
5.10 Discussion . . . 116

6 Protocols as Petri nets **117**
6.1 Preliminaries . . . 120
6.2 Multilabeled Petri nets . . . 122
6.3 Composition . . . 125
6.4 Abstraction . . . 131
6.5 Discussion . . . 135

III Scheduling **137**

7 Protocols with Workloads **139**
7.1 Work automata . . . 140
7.2 State Space Minimization . . . 145
7.3 Related work . . . 151
7.4 Discussion . . . 151

8 Protocol Scheduling **153**
8.1 Graph games . . . 154
8.2 Scheduling Game . . . 158
8.3 Protocol restriction . . . 161
8.4 Related work . . . 163
8.5 Discussion . . . 164

9 Conclusion **165**
9.1 Summary . . . 165
9.2 Future work . . . 167

Bibliography **169**

Appendices **185**

A Original CSDF program **185**

B Scheduled CSDF program **187**

Curriculum Vitae **191**

List of Publications **193**

Samenvatting **195**

Summary **196**

Acknowledgments **198**
