Contents

Chapter 1.....	3
General introduction	
 Chapter 2	21
Importance of natural land cover for plant species' conservation: a nationwide study in The Netherlands	
 Chapter 3.....	67
The distributions of insect-, wind- and self-pollination of plants in the Netherlands in relation to habitat types and 3D vegetation structure	
 Chapter 4.....	109
Dutch landscapes are losing insect-pollinated plants	
 Chapter 5.....	137
Plant conservation needs more than natural and protected areas	
 Chapter 6.....	175
General discussion	
 Summary	191
Samenvatting.....	193
 Acknowledgements	197
 Curriculum vitae.....	199
 Publications	200
