The research in this thesis was financially supported by the Netherlands Organization for Health Research and Development (ZonMW), the Dutch National Epilepsy Fund (EpilepsieNL), Health Holland, and the 'Christelijke Vereniging voor de Verpleging van Lijders aan Epilepsie'.

The author gratefully acknowledges financial support for the printing and spreading of this thesis by LivAssured BV and Stichting Epilepsie Instellingen Nederland (SEIN).

Uncovering the value of autonomic signs and seizure detection in epilepsy care

**De waarde van autonome symptomen
en aanvalsdetectie in de epilepsiezorg onthuld**
(met een samenvatting in het Nederlands)

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof. dr. ir. H. Bijl,
volgens besluit van het college voor promoties
te verdedigen op dinsdag 12 september 2023
klokke 12.30 uur

door

Anouk van Westrhenen
geboren te Naarden
in 1989

Promotor: Prof. dr. J.G. van Dijk

Copromotor: Dr. R.D. Thijs

Thesis Committee: Prof. dr. P.C.W. Hogendoorn
Prof. dr. H. Hulst
Prof. dr. S. Beniczky (Aarhus University, Denmark)
Prof. dr. K.P.J. Braun (Utrecht UMC)
Dr. F.S.S. Leijten (Utrecht UMC)

CONTENTS

CHAPTER 1	General Introduction	7
CHAPTER 2	Ictal autonomic changes as a tool for seizure detection: a systematic review	19
CHAPTER 3	Ictal asystole: how to unveil the hidden ties between the brain and the heart	49
CHAPTER 4	Timing of syncope in ictal asystole as a guide when considering pacemaker implantation	55
CHAPTER 5	Multimodal nocturnal seizure detection in children with epilepsy: a prospective, long-term, home-based, multicenter trial	71
CHAPTER 6	Automated video-based detection of nocturnal motor seizures in children	97
CHAPTER 7	An economic evaluation of the NightWatch for children with refractory epilepsy: insight into the cost-effectiveness and cost-utility	107
CHAPTER 8	Parental experiences and perspectives on the value of seizure detection while caring for a child with epilepsy: a qualitative study	123
CHAPTER 9	Seizure detection devices: Exploring caregivers' needs and wishes	145
CHAPTER 10	Parental preferences for seizure detection devices: results from a discrete choice experiment	161
CHAPTER 11	General Discussion	185
