CONTENTS

Chapter 1	General introduction and outline	9
-----------	----------------------------------	---

PART 1 ANTISEIZURE MEDICATION EFFICACY

Chapter 2	Efficacy of antiepileptic drugs in glioma patients with epilepsy: a systematic review.	27
-----------	--	----

Chapter 3	First-line antiepileptic drug treatment in glioma patients with epilepsy: levetiracetam versus valproic acid	89
-----------	--	----

Chapter 4	First-line levetiracetam versus enzyme-inducing antiseizure medication in glioma patients with epilepsy	113
-----------	---	-----

Chapter 5	Effectiveness of antiseizure medication duotherapies in patients with glioma: a multicenter observational cohort study	131
-----------	--	-----

Chapter 6	Effectiveness of antiseizure medication triple therapy in patients with glioma with refractory epilepsy: an observational cohort study	161
-----------	--	-----

Chapter 7	The effectiveness of antiepileptic drug treatment in glioma patients: lamotrigine versus lacosamide	183
-----------	---	-----

PART 2 ANTISEIZURE MEDICATION TOLERABILITY

Chapter 8	Effect of antiepileptic drugs in glioma patients on self-reported depression, anxiety, and cognitive complaints	205
-----------	---	-----

**PART 3 ANTISEIZURE MEDICATION PRESCRIPTION
BEHAVIOR AND TREATMENT POLICY**

Chapter 9 Prescription preferences of antiepileptic drugs in brain tumour patients: an international survey among EANO members 239

Chapter 10 Summary, general discussion, and future directions 263
