My bad!

Subclinical and neurochemical alterations of performance
monitoring for self and others

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof.dr.ir. H. Bijl,
volgens besluit van het college voor promoties
te verdedigen op donderdag 16 november 2023
klokke 15:00 uur

door

Myrthe Jansen
geboren te Wageningen
in 1993

Promotor:

Prof.dr. E. R. A. de Bruijn

Copromotor:

Dr. S. Overgaauw

Promotiecommissie:

Prof.dr. A. W. M. Evers (Wetenschappelijk Directeur Instituut Psychologie / voorzitter)

Prof.dr. B. M. Elzinga

Dr. A.C.K. van Duijvenvoorde

Prof.dr. G. Pourtois (Universiteit Gent)

Prof.dr. J. Klawohn (MSB Medical School Berlin)

Table of contents

Chapter 1	General introduction	7
<i>Part 1 - the role of social responsibility and obsessive-compulsive symptoms</i>		25
Chapter 2	Enhanced error-related brain activations for mistakes that harm others: ERP evidence from a novel social performance-monitoring paradigm	27
Chapter 3	Social cognition and obsessive-compulsive disorder: a review of subdomains of social functioning	53
Chapter 4	Mistakes that matter: An event-related potential study on obsessive-compulsive symptoms and social performance monitoring in different responsibility contexts	123
<i>Part 2 - neurochemical aspects of (social) performance monitoring</i>		157
Chapter 5	Hormonal status effects on the electrophysiological correlates of performance monitoring in women	159
Chapter 6	L-DOPA and oxytocin influence the neurocomputational mechanisms of self-benefitting and prosocial reinforcement learning	187
Chapter 7	L-DOPA and oxytocin influence the neural correlates of performance monitoring for self and others	241
Chapter 8	General discussion	271
Chapter 9	Appendices	301
	<i>Nederlandse samenvatting (Dutch summary)</i>	302
	<i>List of publications</i>	311
	<i>About the author</i>	312
	<i>Dankwoord (acknowledgements)</i>	313
