Milou Anne Maria Stals

geboren te Sittard

in 1994

Promotores:

Prof. Dr. M.V. Huisman

Prof. Dr. F.A. Klok

Leden promotiecommissie:

Prof. Dr. H.C.J. Eikenboom

Prof. Dr. H. ten Cate (Maastricht Universitair Medisch Centrum, Maastricht)

Prof. Dr. P.W. Kamphuisen (Tergooi Medisch Centrum, Hilversum en Amsterdam Universitair Medisch Centrum, Amsterdam)

Dr. E.D. Beishuizen (Haaglanden Medisch Centrum, Den Haag)

TABLE OF CONTENTS

Chapter 1	General introduction and outline of this thesis	7
Part 1	The diagnostic management of suspected acute pulmonary embolism	15
Chapter 2	Diagnostic management of acute pulmonary embolism in special populations	17
Chapter 3	Safety and efficiency of diagnostic strategies for ruling out pulmonary embolism in clinically relevant patient subgroups: a systematic review and individual-patient data meta-analysis	35
Chapter 4	Non-invasive diagnostic work-up for suspected acute pulmonary embolism during pregnancy: a systematic review and meta-analysis of individual patient data	73
Chapter 5	Performance of the 4-Level Pulmonary Embolism Clinical Probability Score (4PEPS) in the diagnostic management of pulmonary embolism: an external validation study	97
Chapter 6	Getting the diagnosis of acute pulmonary embolism right – which diagnostic strategy?	123
Chapter 7	Use of the National Early Warning Score for predicting deterioration of patients with acute pulmonary embolism: a post-hoc analysis of the YEARS study	139
Part 2	Venous thrombotic complications in COVID-19 patients	165
Chapter 8	Risk of thrombotic complications in influenza versus COVID-19 hospitalized patients	167
Chapter 9	Challenges in the diagnostic approach of suspected pulmonary embolism in COVID-19 patients	185
Chapter 10	Ruling out pulmonary embolism in patients with (suspected) COVID-19 - a prospective cohort study	199
Chapter 11	General discussion and summary	219
Chapter 12	Nederlandse samenvatting	231
Appendices		243
	List of publications	245
	Dankwoord	249
	Curriculum Vitae	253
