During the publication process a typo was introduced in this article. The correct and incorrect information is shown below. The original article has been updated. The publisher apologizes for the inconvenience caused to the authors & readers.

Incorrect

For this reason, we think our participants are more "positive about participation", "thoughtful about participation" than that they have a need for autonomy.

Correct

For this reason, we think our participants are more "thoughtful about participation" than that they have a need for autonomy.
