# Cardiovascular disease burden in thoracic aortopathy

Onur Barış Dolmacı

The studies described in this thesis were performed at the Departments of Cardiothoracic Surgery of the Leiden University Medical Center and the Amsterdam University Medical Center; the Department of Anatomy and Embryology and the Department of Molecular Cell Biology of the Leiden University Medical Center, Leiden, The Netherlands.

# Cardiovascular disease burdens in thoracic aortopathy

## Proefschrift

ter verkrijging van

de graad van doctor aan de Universiteit Leiden,  
op gezag van rector magnificus prof.dr.ir. H. Bijl,  
volgens besluit van het college voor promoties  
te verdedigen op woensdag 8 mei 2024

klokke 10 uur

door

Onur Barış Dolmaci

geboren te Amsterdam

in 1993

## **Promotiecommissie**

Promotor: Prof. Dr. R.J.M. Klautz

Co-promotor Dr. N. Grewal

Overige leden: Prof. Dr. Y. Pinto, Amsterdam UMC

Prof. Dr. J. van der Velden, Amsterdam UMC

Prof. Dr. J.W. Jukema

Prof. Dr. M.J.T.H. Goumans

## Table of Contents

<b>Part I. Introduction and Thesis outline</b>		<b>8</b>
<b>Part II. Atherosclerotic disease burden in thoracic aortopathy; descriptive studies</b>		
Chapter 2	The prevalence of coronary artery disease in bicuspid aortic valve patients: An overview of the literature <i>Aorta (Stamford) 2024 Feb 7;00:1-7</i>	33
Chapter 3	A comparative evaluation of coronary disease burden: bicuspid valve disease is not athero-protective <i>Open Heart. 2021 Sep;8(2):e001772.</i>	49
<b>Part III. Evaluating coronary artery disease in thoracic aortopathy through imaging modalities</b>		
Chapter 4	The extent of coronary artery disease in patients with stenotic bicuspid versus tricuspid aortic valves. <i>J Am Heart Assoc. 2021 Jun 15;10(12):e020080.</i>	59
Chapter 5	Are thoracic aortic aneurysm patients at increased risk for cardiovascular diseases? <i>J Clin Med. 2022 Dec 29;12(1):272.</i>	75
Chapter 6	Risk for acquired coronary artery disease in genetic versus congenital thoracic aortopathy <i>Front Cardiovasc Med. 2023 Jan 12:9:1036522.</i>	87

#### **Part IV. Evaluating atherosclerosis in thoracic aortopathy through histopathology**

Chapter 7	Thoracic aortopathy in Marfan syndrome overlaps with mechanisms seen in bicuspid aortic valve disease <i>Front Cardiovasc Med. 2023 Feb 9;10:1018167.</i>	101
Chapter 8	Thoracic aortic atherosclerosis in patients with a bicuspid aortic valve <i>BMC Cardiovasc Disord. 2023 Jul 19;23(1):363.</i>	121
Chapter 9	Are acute type A aortic dissections atherosclerotic? <i>Front Cardiovasc Med. 2023 Jan 9;9:1032755.</i>	137

#### **Part V. Survival after aortic valve and root replacement in BAV patients**

Chapter 10	Survival of bicuspid aortic valve patients after elective aortic valve and root surgery <i>Submitted</i>	153
Chapter 11	Aortic root replacement for bicuspid aortic valve dysfunction does not impair survival rates <i>Submitted</i>	169

#### **Part VI. Final stanza; cardiovascular disease burden in thoracic aortopathy**

Chapter 12	Summary, clinical relevance and future perspectives	177
Chapter 13	Dutch summary	189
Chapter 14	List of abbreviations	194
	Acknowledgements	195
	List of publications	197
	Curriculum Vitae	199
