for shared decision making
about treatment**

Sascha Marianne Keij

Patient readiness for shared decision making about treatment
PhD thesis
Leiden University Medical Center, the Netherlands

The research described in chapters 2, 4 and 5 was financially supported by a grant from ZonMW (The Netherlands Organisation for Health Research and Development; 516000508).

The research described in chapters 2, 5 and 6 was financially supported by a grant from KWF Dutch Cancer Society (11710).

Financial support by the department of Biomedical Data Sciences (LUMC) for the publication of this thesis is gratefully acknowledged.

For the sake of terminological consistency within this thesis, the spelling of certain terms has been standardized throughout the text. Consequently, there might be minor differences in spelling compared to the articles that have been published.
