TABLE OF CONTENTS

Chapter 1	General introduction and outline	9
Chapter 2	Temporal associations between salivary cortisol and emotions in clinically depressed individuals and matched controls: a dynamic time warp analysis	27
Chapter 3	Neuropsychiatric adverse effects of synthetic glucocorticoids: a systematic review and meta-analysis	63
Chapter 4	Emotional dynamics during glucocorticoid treatment in cutaneous T-cell lymphoma patients: insights from dynamic time warp analysis of daily assessments	103
Chapter 5	Mineralocorticoid receptor status in the human brain after dexamethasone treatment: a single case study	127
Chapter 6	The DEXA-CORT trial: study protocol of a randomised placebo-controlled trial of hydrocortisone in patients with brain tumour patients on the prevention of neuropsychiatric adverse effects caused by perioperative dexamethasone	145
Chapter 7	General discussion and perspectives	169
Chapter 8	Appendices	187
	Summary	188
	Nederlandse samenvatting	192
	List of publications	197
	Curriculum vitae	199
	Dankwoord	200
