The research presented in this dissertation was carried out at the Centrum Wiskunde & Informatica (CWI) in Amsterdam, in collaboration with the Rijksmuseum Amsterdam; the British Museum, London (chapters 4 and 5); and The J. Paul Getty museum, Los Angeles (chapter 4).

Financial support was provided by the Dutch Research Council (NWO), programme project number 628.007.033, and Netherlands Institute for Conservation Art and Science (NICAS). The FleX-ray Laboratory is supported by the Dutch Research Council, project number 639.073.356. The project that is presented in chapter 5 was supported by a Small Project grant for the IntACT project from the Netherlands Institute for Conservation, Art and Science (NICAS). Francien G. Bossema was supported by Prins Bernhard Cultuurfonds, Jo Kolk Studiefonds, Catherina van Tussenbroekfonds and European Women in Mathematics Association (EWM) to take up a research placement at the British Museum in London.
