TABLE OF CONTENTS

Chapter 1	General introduction and thesis outline <i>Adapted from Hereditary Pancreatic Cancer Best Practice & Research Clinical Gastroenterology June 2022</i>	9
PART I	Effectiveness of pancreatic cancer surveillance in carriers of a germline CDKN2A pathogenic variant	23
Chapter 2	Pancreatic Cancer Surveillance in Carriers of a Germline CDKN2A Pathogenic Variant: Yield and Outcomes of a 20-Year Prospective Follow-Up <i>Journal of Clinical Oncology 2022</i>	25
Chapter 3	Surveillance for Pancreatic Cancer in High-Risk Individuals Leads to Improved Outcomes: A Propensity-Score Matched Analysis <i>Gastroenterology 2023</i>	51
PART II	Improving pancreatic cancer surveillance for high-risk individuals	71
Chapter 4	Psychosocial Issues of Individuals for Increased Risk of Melanoma and Pancreatic Cancer Due to a Germline CDKN2A Variant: A Focus Group Study <i>Journal of Genetic Counseling 2023</i>	73
Chapter 5	Longitudinal Changes of Serum Protein N-Glycan Levels for Earlier Detection of Pancreatic Cancer in High-Risk Individuals <i>Pancreatology 2022</i>	95
Chapter 6	Risk Stratification of Individuals with a Germline CDKN2A Mutation Undergoing Pancreatic Cancer Surveillance <i>Submitted</i>	121
PART III	Identification of individuals at high risk of pancreatic cancer	129
Chapter 7	Identification of Individuals at High Risk for Pancreatic Cancer Using a Digital Patient Input Tool Combining Family History Screening and New-Onset Diabetes <i>Preventive Medicine Reports 2023</i>	131
Chapter 8	Utilization and Outcomes of Multigene Panel Testing in Patients with Pancreatic Ductal Adenocarcinoma <i>JCO Oncology Practice 2024</i>	151
Chapter 9	Temporal Trends in Body Composition and Metabolic Markers Prior to Diagnosis of Pancreatic Ductal Adenocarcinoma <i>Clinical Gastroenterology and Hepatology 2024</i>	173
PART IV	General discussion and appendices	197
Chapter 10	General discussion and future perspectives	199
Appendices	Nederlandse samenvatting	210
	List of publications	213
	Curriculum vitae	215
	Dankwoord	216
