The research described in this thesis was conducted at the department of Parasitology, Leiden University Center for Infectious Diseases, LUMC.

# **Building bridges: a multidisciplinary approach to controlled human hookworm infection**

Proefschrift

ter verkrijging van  
de graad van doctor aan de Universiteit Leiden,  
op gezag van de rector magnificus prof. dr. ir. H. Bijl,  
volgens besluit van het college voor promoties  
te verdedigen op woensdag 5 juni 2024  
klokke 13.45 uur

door

Marie-Astrid Hoogerwerf  
geboren te Rotterdam  
in 1988

Promotiecommissie:

Promotores:

Prof. dr. M. Roestenberg

Prof. dr. M. C. de Vries

Overige leden:

Em. Prof. E.J. Kuijper

Prof. A. Loukas (James Cook University, Cairns, Australia)

Prof. D. Bogaert (University of Edinburgh, Edinburgh, United Kingdom and UMCU, Utrecht)

Dr. E.A. van Lieshout

Dr. R. van der Graaf (UMCU, Utrecht)

## Table of contents

<b>Chapter 1</b>	General introduction	7
<b>Chapter 2</b>	Experimental infection of human volunteers. <i>Lancet Infectious Diseases 2018</i>	17
<b>Chapter 3</b>	New insights into the kinetics and variability of egg excretion in controlled human hookworm infections. <i>J Infect Dis 2019</i>	47
<b>Chapter 4</b>	A randomized controlled trial to investigate safety and variability of egg excretion after repeated controlled human hookworm infection. <i>J Infect Dis 2021</i>	61
<b>Chapter 5</b>	Dynamics of the bacterial gut microbiota during controlled human infection with <i>Necator americanus</i> larvae. <i>Gut Microbes 2020</i>	89
<b>Chapter 6</b>	Protective efficacy of short-term infection with <i>Necator americanus</i> hookworm larvae in healthy volunteers in the Netherlands: a single-centre, placebo-controlled, randomised, controlled, phase 1 trial. <i>Lancet Microbe 2023</i>	111
<b>Chapter 7</b>	Money-oriented risk-takers or deliberate decision-makers: a cross-sectional survey study of participants in controlled human infection trials. <i>BMJ Open 2020</i>	137
<b>Chapter 8</b>	Summarizing discussion: “Building bridges: connecting disciplines to improve controlled human infection models”.	165
<b>Appendices</b>		179
	Nederlandse samenvatting	180
	List of publications	184
	Curriculum vitae	186
