Table of contents

Chapter 1	General introduction	9
Chapter 2	Pathogen-derived extracellular vesicle-associated molecules that affect the host immune system: an overview	23
Chapter 3	Optimized protocol for the isolation of extracellular vesicles from the parasitic worm <i>Schistosoma mansoni</i> with improved purity, concentration, and yield	49
Chapter 4	Life stage-specific glycosylation of extracellular vesicles from <i>Schistosoma mansoni</i> schistosomula and adult worms drives differential interaction with C-type lectin receptors DC-SIGN and MGL	71
Chapter 5	Extracellular vesicles from <i>Schistosoma mansoni</i> adult worms stimulate IL-10 release by B cells	101
Chapter 6	DC-SIGN mediated internalisation of glycosylated extracellular vesicles from <i>Schistosoma mansoni</i> increases activation of monocyte-derived dendritic cells	129
Chapter 7	Summarizing discussion and future perspectives	163
Appendices	Popular science summary (English & Dutch)	198
	Nederlandse samenvatting voor niet-ingewijden	199
	Curriculum Vitae	208
