Prof. dr. M. Goddijn, Amsterdam Universitair Medisch Centrum

Prof. dr. K.W.M. Bloemenkamp, Universitair Medisch Centrum Utrecht

## Table of contents

<b>Chapter 1</b>	Introduction	7
<b>Chapter 2</b>	Bacterial vaginosis in a subfertile population undergoing fertility treatments: a prospective cohort study	19
<b>Chapter 3</b>	The relationship between vaginal pH and bacterial vaginosis as diagnosed using qPCR in an asymptomatic subfertile population	39
<b>Chapter 4</b>	The vaginal microbiome changes during various fertility treatments	53
<b>Chapter 5</b>	Testing on bacterial vaginosis in a subfertile population and time to pregnancy: a prospective cohort study	71
<b>Chapter 6</b>	Previous caesarean section is associated with lower subsequent in vitro fertilization live birth rates	89
<b>Chapter 7</b>	The impact of caesarean scar niche on fertility - a systematic review	101
<b>Chapter 8</b>	Summary and discussion	125
<b>Chapter 9</b>	Nederlandse samenvatting	137
<b>Chapter 10</b>	Author affiliations	144
	List of publications	145
	Curriculum Vitae	146
	Dankwoord	147
