Irrigating the Desert

Water Management, Agricultural Practices, and Social Complexity
in Southern Turkmenistan during the Bronze Age

PROEFSCHRIFT

ter verkrijging van

de graad van doctor aan de Universiteit
Leiden, op gezag van rector magnificus
prof.dr.ir. H. Bijl, volgens besluit van het
college voor promoties te verdedigen op

vrijdag 6 december 2024

klokke 11:30 uur

door

Roberto Arciero

Supervisor

Prof.dr. B.S. Düring, Professor of Archaeology of West Asia, Faculty of Archaeology, Leiden University

Additional Supervisor

Prof.dr. P.M.M.G. Akkermans, Professor of Near Eastern Archaeology, Faculty of Archaeology, Leiden University

Doctoral Committee

Prof.dr. J.C.A. Kolen, Dean of the Faculty of Archaeology and Professor of the History and Heritage of European Cultural Landscapes, Faculty of Archaeology, Leiden University

Prof.dr. R.H.A. Corbey, Professor emeritus Philosophy of Science and Anthropology, Faculty of Archaeology, Leiden University.

Prof. Dr. Mirko Novák, Professor of Near Eastern Archeology, Institute of Archaeological Sciences, Bern University.

Dr.ir. M.W. Ertsen, Associate Professor Water and Society, Department of Water Management, Delft University of Technology.

Dr. J.A. Mol, Assistant Professor in Geoarchaeology, Faculty of Archaeology, Leiden University.

Institutions that financially supported this project and dissertation:

National Geographic Society - Early Career Grant (Grant No. EC-219R-18)

LUF - Leiden University Fund (Grant No. W18327-6-EM)

Asian Modernities and Traditions Grant, Leiden University

To my past, to my future

LIST OF CONTENTS

List of Figures.....	8
List of Tables.....	13
Chapter 1 – Introduction.....	14
1. Introduction to the <i>Bactria-Margiana Archaeological Complex (BMAC)</i> or <i>Oxus Civilization</i>	14
1.1 Chronology of the Region: a Few Notes.....	17
1.2 The History of Archaeological Research in Turkmenistan.....	20
1.2.1 Landscape Research in the BMAC.....	24
1.3 Reasons for the Present Research.....	26
1.3.1 Aims of the Research.....	28
1.4 Thesis Structure.....	31
1.5 Limitations and Constraints.....	32
1.6 Summary.....	34
Chapter 2 – The Geology and Climate of Southern Turkmenistan.....	35
2. Overview.....	35
2.1 The Climate of the Murghab Region.....	35
2.1.1 The Paleoclimate during the Holocene in Central Asia.....	37
2.2 The Geomorphological Setting of the Murghab Region and its Hydrology.....	42
2.3 Dune Movement and Soil.....	50
2.3.1 Takyr Surfaces.....	51
2.3.2 The Role of Takyr in Modern Crop Cultivation and Animal Husbandry.....	53
2.3.3 The Role of Takyr in an Archaeological Context.....	54
2.3.4 Takyr and Ancient Watercourses.....	56
2.4 The Local Desert Environment.....	57
2.5 Traditional Pastoralism and Irrigation Farming in the Murghab.....	59
2.6 Summary.....	62
Chapter 3 – The Archaeological Context and Theoretical Framework.....	64
3.1 BMAC Origins and the Broader Context.....	64
3.2 Settlement Systems and Architecture in the Murghab Region.....	68
3.2.1 The Middle Bronze Age.....	68
3.2.1.1 Architecture, Economy, and the Political System.....	69
3.2.1.2 The Late and Final Bronze Age and the “Collapse” of the BMAC.....	81
3.3 The “Andronovo” Presence in the Murghab Region.....	84
3.3.1 Excavated Rural Sites in the Murghab.....	87
3.3.2 Urban–Pastoral Interaction and Local Models of Variability.....	91
3.3.3 Millet Cultivation and Agricultural Variability.....	93
3.3.4 A Comment on the Terminology.....	94
3.4 Models of BMAC Landscape Development.....	96
3.4.1 The Early Soviet and AMMD Models.....	96

3.4.2	Further Models of Landscape Development.....	102
3.5	The Theoretical Context of Hydrological Research	103
3.5.1	The Early Central Asian Context	107
3.6	Summary	108
	Chapter 4 – Methodology	110
4.	Overview.....	110
4.1	GIS Analysis	111
4.2	Remote Sensing	113
4.2.1	A Short Introduction to Aerial Photo Interpretation and Remote Sensing.....	113
4.2.2	CORONA Images	115
4.2.3	LANDSAT Images.....	118
4.2.4	Sentinel Images.....	118
4.2.5	Aerial Photos.....	119
4.2.6	Cartography.....	122
4.2.7	Image Analysis and Interpretation	123
4.3	Field Work.....	128
4.3.1	A Short Introduction to The History of Investigating Ancient Channels.....	128
4.3.2	Previous and Current Survey Projects of the Murghab Region	130
4.3.3	Pottery Clusters: What Do They Represent?	132
4.3.4	The Definition and Categorization of “Site”.....	134
4.3.5	Field Survey.....	138
4.3.5.1	Ancient Channel Scouting and Recording	139
4.3.5.2	Pedestrian Survey.....	141
4.3.6	Paleochannel Investigations.....	144
4.3.6.1	Hydrological System and Geoarchaeological Approach	144
4.3.6.2	Channel Cores.....	150
4.3.6.3	Channel Trenches.....	151
4.4	Modeling of a Water Channel	152
4.4.1	SOBEK Software Analysis	153
4.5	Isotope Analysis	154
4.5.1	Togolok Botanical Samples	156
4.6	Summary	157
	Chapter 5 – Results from the Ojakly Area	160
5.	Results: The Ojakly Area	160
5.1	Overview.....	160
5.2	The Peripheries and the ICW (Andronovo) Presence in the Ojakly Area	160
5.3	The Ojakly Site	163
5.3.1	Excavations and Interpretations.....	163
5.3.2	Subsistence Economy	165
5.4	Results: Remote Sensing Analysis of the Paleochannel Network	172

5.4.1 The Ojakly Paleochannel System	176
5.4.2 Paleochannel Ground Truthing	191
5.4.3 Paleochannel Characteristics	199
5.5 Results of the Field Survey in the Ojakly Area.....	202
5.5.1 Recorded Sites	204
5.5.2 Chronology of the Recorded Sites	208
5.5.3 The AMMD and Soviet Survey Data.....	211
5.6 Settlements and Channels in the Ojakly Area.....	213
5.7 Paleochannel Chronology	223
5.8 Results of Paleochannel Investigations.....	227
5.8.1 Fieldwork Preparation.....	227
5.8.2 Cross-Section Coring.....	228
5.8.3 The Test Trench.....	231
5.8.4 Section Description and Discussion.....	232
5.9 The Takyr Areas in Ojakly	240
5.9.1 Results of the Takyr Analysis.....	243
5.10 Results: Modelling the Irrigation System	245
5.10.1 Modelling Paleochannel 10.....	247
5.10.1.1 Scenario Results.....	249
5.10.1.2 Water Management Scenario	250
5.11 Synthesis	252
Chapter 6 – Results from the Togolok Area.....	254
6. Results: The Togolok Area.....	254
6.1 Overview.....	254
6.2 The Cluster Site Area of Togolok.....	254
6.2.1 Togolok 21	256
6.2.2 Togolok 24	258
6.2.3 Togolok 1	258
6.2.3.1 Togolok 1: Southern Mound (Tepe 2).....	260
6.2.3.2 Togolok 1: Northern Mound (Tepe 1).....	262
6.2.4 The Domestic Economy of the Togolok Area.....	271
6.3 Results: Remote Sensing Analysis of the Paleochannel Network	273
6.3.1 The Togolok Paleochannel System	275
6.3.2 Ground Truthing the Paleochannels.....	284
6.3.3 Paleochannel Characteristics	290
6.4 Results: the Field Survey in the Togolok Area	295
6.4.1 Recorded Sites	296
6.4.2 Chronology of the Recorded Sites	299
6.4.3 The AMMD and Soviet Survey Data.....	301
6.4.4 Settlements and Channels in the Togolok Area	303

6.4.5 Paleochannel Chronology	310
6.5 Results: Paleochannel Test Trench.....	312
6.5.1 Fieldwork Preparation.....	312
6.5.2 Cross-Section Coring.....	314
6.5.3 The Test Trench.....	316
6.5.4 Section Description and Discussion.....	317
6.6 The Takyr Areas in Togolok.....	324
6.7 Isotope Analysis from Botanical Samples	327
6.7.1 Results of the Isotope Analysis from Togolok 1	330
6.8 Synthesis	333
Chapter 7 – Discussion and Conclusion.....	335
7. Discussion.....	335
7.1 Overview.....	335
7.2 Climate Change and Local Dynamics.....	335
7.2.1 Micro-Climatic Changes and Social Response.....	336
7.3 Re-evaluating the Local Dynamics during the 3 rd and 2 nd Millennium BCE ...	338
7.3.1 “Dots” along the Channels.....	340
7.3.2 Reconsidering the Manuring Hypothesis in the Togolok and Ojakly Areas..	342
7.3.3 Economy and Settlement Pattern in the Murghab	344
7.4 Center–Periphery Dynamics in the Murghab	347
7.4.1 Settlement Systems and the Problem of Single-Period Occupation.	349
7.5 Pastoralism and Agricultural Practices: Same Landscape, Different Strategies	351
7.6 Agriculture and Subsistence Economies in Rural Areas.....	355
7.7 Stability and Predictability of the Water System	360
7.8 The Workforce and Canal System: a Preliminary Analysis	364
7.8.1 The Murghab Irrigation System and the Mesopotamian Model	367
7.9 Conclusion	369
7.9.1 Towards a “Multiple Adaptation” Model.....	370
7.9.2 Future Directions: a Suggestion.....	375
Acknowledgments	380
References	382
Appendices.....	446
- Appendix 1.....	446
- Appendix 2.....	465
- Appendix 3.....	467
Glossary	481
English Summary.....	484
Nederlandse Samenvatting.....	486
Curriculum Vitae	488
