The COVID-19 pandemic and vulnerable older persons

Impact of a public health emergency on
nursing homes and geriatric rehabilitation

Lisa Sanne van Tol

Colophon

The work in this thesis was conducted at the department of Public Health and Primary care of the Leiden University Medical Center.

Academic network for research in elderly care

The studies in this thesis took place in the University Network for the Care Sector South Holland (UNC-ZH). In this network, the Leiden University Medical Center (LUMC) collaborates structurally with 11 elderly care organizations in South Holland (Aafje, ActiVite, Argos Zorggroep, Haagse Wijk- en Woonzorg, Laurens, Marente, Pieter van Foreest, Safier, Topaz, Woonzorgcentra Haaglanden, Zonnehuisgroep Vlaardingen).

Caregivers, policy makers, researchers, students, residents and relatives work together to improve the quality of care and quality of life for vulnerable older people. The UNC-ZH is a regional platform, inspirator and learning network for innovation in long-term care. Research, education and training, and practice are closely related.

Funding

The COVID-19 management in nursing homes by outbreak teams (MINUTES) study was partly funded by the Dutch Ministry of Public Health Welfare and Sport (grant numbers 330526 and 331873) and was supported by a grant of Zorg Onderzoek Nederland en Medische Wetenschappen (ZonMw): programma Kennisinstructuur Academische Werkplaatsen Ouderenzorg (grant number 640001003).

The European cooperation in geriatric rehabilitation after COVID-19 (EU-COGER) study was also supported by grants of ZonMw: program Kennisinstructuur Academische Werkplaatsen Ouderenzorg (grant number 640001003) and program COVID-19 (as part of the COVID-19 Outcomes in Older People (COOP) study, grant number 10430102110005). In addition, the EU-COGER study was partly funded by the Leiden University Fund (Leiden Empowerment Fund, grant number LEF2106-2-47).

The COVID-19 pandemic and vulnerable older persons

Impact of a public health emergency on
nursing homes and geriatric rehabilitation

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof. dr. ir. H. Bijl,
volgens besluit van het college voor promoties
te verdedigen op woensdag 11 december 2024
klokke 13:00 uur
