LIST OF PUBLICATIONS

1. Huisman EJ, Holle N, Schipperus M, Cnossen MH, de Haas M, Porcelijn L, Zwaginga JJ. Should HLA and HPA-matched platelet transfusions for patients with Glanzmann Thrombasthenia or Bernard-Soulier syndrome be standardized care? A Dutch survey and recommendations. *Transfusion*. 2024 Apr 20. doi: 10.1111/trf.17824. Epub ahead of print. PMID: 38642032.
2. Meier RT, Porcelijn L, Hofstede-van Egmond S, Henskens YMC, Coutinho JM, Kruip MJHA, Stroobants AK, Zwaginga JJ, van der Born JG, van der Schoot CE, de Haas M, Kapur R. Laboratory approach for vaccine-induced thrombotic thrombocytopenia diagnosis in the Netherlands. *Vox Sang*. 2024 Apr 10. doi: 10.1111/vox.13633. Epub ahead of print. PMID: 38597072.
3. de Vos TW, Winkelhorst D, Porcelijn L, Beaufort M, Oldert G, van der Born JG, Lopriore E, Oepkes D, de Haas M, van der Schoot E. Natural history of human platelet antigen 1a-alloimmunised pregnancies: a prospective observational cohort study. *Lancet Haematol*. 2023 Dec;10(12):e985-e993. doi:10.1016/S2352-3026(23)00271-5. Epub 2023 Oct 27. PMID: 38407610.
4. Oosterhoff JJ, Linty F, Visser R, de Vos T, Hofstede-van Egmond S, van de Weerd M, Porcelijn L, de Haas M, van der Schoot E, Vidarsson G. Generation of human antibodies targeting human platelet antigen (HPA)-1a. *Transfusion*. 2024 Feb 24. doi: 10.1111/trf.17758. Epub ahead of print. PMID: 38400657.
5. Raadsen MP, Visser C, Lavell AHA, van de Munckhof AAGA, Coutinho JM, de Maat MPM, GeurtsvanKessel CH, Amsterdam Umc Covid-S/Hcw Study Group, Somers MK, Haagmans BL, van Gorp ECM, Porcelijn L, Kruip MJHA. Transient Autoreactive PF4 and Antiphospholipid Antibodies in COVID-19 Vaccine Recipients. *Vaccines (Basel)*. 2023 Dec 14;11(12):1851. doi: 10.3390/vaccines11121851. PMID: 38140254; PMCID: PMC10747426.
6. Wang JJ, van der Neut Kolfschoten M, Rutten L, Armour B, Tan CW, Chataway T, Bos R, Koornneef A, Abeywickrema P, Kapur R, Porcelijn L, Khalifa M, Sadi A, Bouchier P, Kourkouta E, Perkasa A, Kwaks T, Zahn R, Solforosi L, Gordon TP. Characterization of reverse-engineered anti-PF4 stereotypic antibodies derived from serum of patients with VITT. *Blood*. 2024 Jan 25;143(4):370-374. doi: 10.1182/blood.2023021307. PMID: 37976451.
7. Szittner Z, Bentlage AEH, Temming AR, Schmidt DE, Visser R, Lissenberg Thunnissen S, Mok JY, van Esch WJE, Sonneveld ME, de Graaf EL, Wuhler M, Porcelijn L, de Haas M, van der Schoot CE, Vidarsson G. Cellular surface plasmon resonance-based detection of anti-HPA-1 a antibody glycosylation in fetal and neonatal alloimmune thrombocytopenia. *Front Immunol*. 2023 Oct 5;14:1225603. doi: 10.3389/fimmu.2023.1225603. PMID: 37868955; PMCID: PMC10585714.
8. van der Velden S, van Osch TLJ, Seghier A, Bentlage AEH, Mok JY, Geerdes DM, van Esch WJE, Pouw RB, Brouwer MC, Jongerius I, de Haas M, Porcelijn L, van der Schoot CE, Vidarsson G, Kapur R. Complement activation drives antibody-mediated transfusion-related acute lung injury via macrophage trafficking and formation of NETs. *Blood*. 2024 Jan 4;143(1):79-91. doi: 10.1182/blood.2023020484. PMID: 37801721.
9. Bayat B, Lowack J, Audrain M, Croisille L, Curtis B, Dangerfield R, Esmaeili B, Grabowski C, Keller M, Kim H, Kroll H, Kvanka MM, Kwok J, Moritz E, Nathalang O, Nelson D, Nielsen KR, Pahn G, Poles A, Porcelijn L, Sachs UJ, Schanbacher M, Kormoczi GF, Kupatawintu P, Takahashi D, Uhrynowska M, Flesch B, Fung YL. World human neutrophil antigens investigation survey. *Vox Sang*. 2023 Sep;118(9):763-774. doi: 10.1111/vox.13500. Epub 2023 Aug 22. PMID: 37608544.

CURRICULUM VITAE

Leendert Porcelijn, author of this thesis was born in Hillegom on September 19th 1959. Having a sister and brother, he is the youngest son of Salomon Porcelijn and Jopie Porcelijn-van Kampen. Living close to the sea and dunes, between the bulb fields and half an hour's bike ride from Haarlem and Leiden, secondary school education was completed at the St Bernardus MAVO in Hillegom and the HAVO and Atheneum at the Cornhert lyceum in Haarlem.

He then moved to Amsterdam to study Medicine at the University of Amsterdam. After graduation he worked as Senior House Officer, Accident and Emergency Department, West Wales General Hospital, Carmarthen, South Wales, as Assistant Paediatrician, VU Medical Centre, Amsterdam and as Assistant Neonatologist, Leiden University Medical Centre, Leiden.

In 1993 he started working as Head Platelet/Leukocyte Serology and staff member of the Immunohematology Diagnostics department at the Central Laboratory of the Blood Transfusion (CLB), that was later merged with the blood banks to form Sanquin Blood supply. During his time at CLB/Sanquin, he graduated as Transfusion Physician, was president of the Dutch society of blood transfusion (NVB), presented numerous lectures, completed several scientific and managerial courses and was (co)author of more than 100 scientific papers.

Leendert is married to Ineke Witteman and they have two daughters, Iris and Lisa.

He enjoys running, golfing and playing guitar.

DANKWOORD

Uiteindelijk dan toch. Vaak gedacht dat het samenstellen van een proefschrift wel mooi zou zijn en dat ik misschien wel genoeg artikelen geschreven had om dit te realiseren. Het heeft echter de bezieling en motivatie van Masja en Jaap Jan nodig gehad om van een wens realiteit te maken. Masja de Haas ik bedank je natuurlijk voor dit proefschrift, voor al je inzicht (een half woord was genoeg), je enorme kennis en voor de jaren van fijne en leuke samenwerking. Jaap Jan, van jouw positieve houding heb ik altijd kunnen genieten en het heeft mij echt over een drempel geholpen. Mijn bewondering voor je kritische klinische blik. Ik vergeet niet je opmerking: 'leuk dat je uitgebreid ingaat op de laboratorium kant, maar waar staat nu wat dit voor de kliniek betekent'. Daarbij moet ook nog genoemd worden dat de snelheid waarmee jij de concept artikelen nakijkt, legendarisch is. Beste Rick, het is een waar genoegen om met jou over studies na te denken en congressen te bezoeken. Mooi om te zien hoe je een prachtig internationaal netwerk met veel onderzoekers hebt opgebouwd. Dit is voor Sanquin en voor ons laboratorium van grote waarde. Natuurlijk moet ik Marijke Overbeeke bedanken, alleen al omdat zij het gedurfd heeft om mij aan te nemen, maar meer omdat ik door haar heb kunnen zien hoe je een goed team kan opbouwen en motiveren. Elly Huisjes, jouw waarde voor het trombocyten-leukocyten laboratorium en voor mij persoonlijk is enorm geweest. Je organisatorische talent en geweldige geheugen heeft het voor mij (voor ons) allemaal een stuk eenvoudiger gemaakt. Suzanne, dat jij Elly hebt willen opvolgen heeft veel goeds gebracht. Iedere keer weer heb je mij op het goede praktische spoor kunnen zetten. Dit natuurlijk in nauwe samenwerking met alle collega's binnen het Trombo-leuko team, nu bestaande uit Ilona, Gonda, Michelle, Laura, Michelle, Roxanne, Jill en Marrie. Ik kan er kort over zijn, dat ons lab al jaren een nationaal en internationaal top referentie laboratorium is, komt door jullie. Claudia Folman, speciale dank aan jou, voor het verder professionaliseren van de afdeling Immunohematologie Diagnostiek en voor de hele leuke tijd die we hier hebben gehad. Jessie en Anne, de 'paarse gang' boft maar met zulke fijne collega's. Never a dull moment, waarvoor dank. Ik moet nog veel anderen bedanken, waaronder Peer, Piet, Margriet, Daan, Conny, Junior, Ellen, Gestur, Martin, Romy, David, enz. enz. Teveel om op te noemen, maar weet dat ik aan jullie denk.

Lieve Ineke, zonder jou had dit niet gekund. Ik hou van je en van onze prachtige dochters Iris en Lisa.
