The pre-Roman elements of the Sardinian lexicon

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof.dr.ir. H. Bijl,
volgens besluit van het college voor promoties
te verdedigen op woensdag 12 februari 2025
klokke 16:00 uur

door

Cid Swanenvleugel

geboren te Delft

in 1998

Promotores: Prof.dr. G.J. Kroonen
Prof.dr. M.G. Kossmann

Promotiecommissie: Prof.dr. G. Mensching (Universität Göttingen)
Prof.dr. M.P.G.M. Mous
Dr. G. Murgia (Università di Cagliari)
Prof.dr. P.C.H. Schrijver (Universiteit Utrecht)

This research was carried out with funding from the European Research Council (ERC) under the European Union's Horizon 2020 research and innovation programme (Grant agreement No. 716732).

I Introduction	1
1 Sardinia and its linguistic background	3
1.1 The languages of Sardinia	3
1.2 The romanization of Sardinia	6
1.3 The Sardinian substrate	7
1.3.1 Features of the Sardinian substrate	8
1.3.1.1 The Sardinian pre-Roman lexicon	8
1.3.1.2 Pre-Roman toponyms in Sardinia	9
1.3.1.3 Substrate-induced features of Sardinian	9
1.3.2 The Mediterranean substrate	10
1.3.2.1 A note on “Ligurian”	14
1.3.2.2 A note on “Iberian”	15
1.3.3 Proposed connections between the Sardinian substrate and attested languages	17
1.3.3.1 Phoenico-Punic	17
1.3.3.2 Berber	18
1.3.3.3 Basque	19
1.3.3.4 Etruscan	20
2 Methodology	23
2.1 Identifying substrate elements	23
2.1.1 Criteria for substrate origin	24
2.1.1.1 Lack of an etymology	24

2.1.1.2	Irregular correspondence	24
2.1.1.3	Unusual phonotactics	25
2.1.1.4	Unusual morphology.....	26
2.1.1.5	Semantic category.....	26
2.1.1.6	Limited geographical distribution	27
2.1.2	Form, meaning, and chance similarities	27
2.1.2.1	Substrate origin or irregular inheritance?	28
2.1.2.1.1	A note on folk etymology.....	29
2.1.2.2	Comparing non-inherited words.....	29
2.1.2.2.1	Toponyms as evidence.....	30
2.1.2.2.2	Conclusion: dealing with chance similarities.....	31
2.2	Analyzing the data	32
2.2.1	Phonological analysis	32
2.2.2	Morphological analysis	35
2.3	Interpreting results	37
2.3.1	Unity of the substrate.....	38
2.3.2	Nature of language contact.....	39
2.3.3	Dynamics of language shift.....	39
2.3.4	Classifying a non-attested language	39
2.3.5	Extralinguistic arguments.....	40
2.4	Conclusion.....	40
II	Linguistic data.....	43
3	Flora	45
3.1	Herbs	45
3.1.1	Annual mercury (<i>Mercurialis annua</i>); goosefoot (<i>Chenopodium</i> <i>sp.</i>)	45
3.1.2	Arum (<i>Arum italicum</i>).....	49
3.1.3	Betony (<i>Stachys glutinosa</i>).....	51

3.1.4	Bristly ox-tongue (<i>Helminthotheca echioides</i>), wild teasel (<i>Dipsacus fullonum</i>)	54
3.1.5	Cat thyme (<i>Teucrium marum</i>), cotton lavender (<i>Santolina chamaecyparissus</i>).....	55
3.1.6	Celery (<i>Apium graveolens</i>), fool's watercress (<i>Apium nodiflorum</i>)..	60
3.1.7	False fennel (<i>Ridolfia segetum</i>).....	62
3.1.8	Fleabane, yellow (<i>Dittrichia viscosa</i>)	64
3.1.9	Germander, yellow (<i>Teucrium flavum</i>).....	66
3.1.10	Hemlock (<i>Conium maculatum</i>) ₁	68
3.1.11	Hemlock (<i>Conium maculatum</i>) ₂	71
3.1.12	Mullein, great (<i>Verbascum thapsus</i>) ₁	72
3.1.13	Mullein, great (<i>Verbascum thapsus</i>) ₂	75
3.1.14	Mullein (<i>Verbascum sp.</i>).....	77
3.1.15	Poppy (<i>Papaver rhoeas</i>).....	79
3.1.16	Mustard ₁	83
3.1.17	Mustard ₂	84
3.1.18	Mustard, black (<i>Brassica nigra</i>)	87
3.1.19	Rue, fringed (<i>Ruta chalepensis</i>), cat thyme (<i>Teucrium marum</i>).....	87
3.1.20	Rush skeletonweed (<i>Chondrilla juncea</i>), Sow thistle (<i>Sonchus oleraceus</i>).....	90
3.1.21	Sea purslane (<i>Atriplex portulacoides</i>).....	92
3.1.22	Teasel, wild (<i>Dipsacus fullonum</i>)	94
3.1.23	Watercress (<i>Nasturtium officinale</i>);, butcher's broom (<i>Ruscus aculeatus</i>).....	96
3.1.24	Watercress (<i>Nasturtium officinale</i>) ₂ , fool's watercress (<i>Apium nodiflorum</i>).....	98
3.2	Grasses, cereals and weeds	100
3.2.1	Bermuda grass (<i>Cynodon dactylon</i>); butcher's broom (<i>Ruscus aculeatus</i>), holly (<i>Ilex aquifolium</i>)	100
3.2.2	Esparto grass (<i>Lygeum spartum</i>).....	104

3.2.3	Galingale (<i>Cyperus longus</i>).....	107
3.2.4	Knotgrass (<i>Polygonum sp.</i>); horsetail (<i>Equisetum palustre</i>)	110
3.2.5	Ropegrass (<i>Ampelodesmos mauritanicus</i>).....	110
3.2.6	Weed (unspecified).....	113
3.3	Trees and shrubs	114
3.3.1	Bean trefoil (<i>Anagyris foetida</i>).....	114
3.3.2	Broom, spiny (<i>Calicotome sp.</i> , <i>Genista sp.</i>).....	116
3.3.3	Dog rose (<i>Rosa canina</i>)	120
3.3.4	Heather (<i>Erica scoparia</i>) ₁	122
3.3.5	Heather (<i>Erica scoparia</i>) ₂ , tree heather (<i>Erica arborea</i>) ₁	124
3.3.6	Holly (<i>Ilex aquifolium</i>) ₁	126
3.3.7	Holly (<i>Ilex aquifolium</i>) ₂	128
3.3.8	Hop-hornbeam (<i>Ostrya carpinifolia</i>).....	131
3.3.9	Maple (<i>Acer monspessulanum</i>)	133
3.3.10	Osier (<i>Salix viminalis</i>).....	135
3.3.11	Oleander (<i>Nerium oleander</i>).....	138
3.3.12	Pine tree (<i>Pinus sp.</i>).....	140
3.3.13	Rockrose (<i>Cistus sp.</i>)	142
3.3.14	Rosemary (<i>Salvia rosmarinus</i>).....	144
3.3.15	Smilax (<i>Smilax aspera</i>)	146
3.3.16	Strawberry tree (<i>Arbutus unedo</i>).....	148
3.3.17	Strawberry tree flower (<i>Arbutus unedo</i>)	150
3.3.18	Strawberry tree fruit (<i>Arbutus unedo</i>)	152
3.3.19	Traveller's joy (<i>Clematis vitalba</i>), fragrant virgin's bower (<i>Clematis flammula</i>).....	155
3.3.20	Tree heather (<i>Erica arborea</i>) ₂	156
3.3.21	Willow (<i>Salix sp.</i>)	159
3.3.22	Yew (<i>Taxus baccata</i>).....	159

3.3.23	Yew (<i>Taxus baccata</i>); buckthorn (<i>Rhamnus alaternus</i>); spindle (<i>Euonymus europaeus</i>)	162
3.4	Plant parts	163
3.4.1	Awn of wild oats (<i>Avena fatua</i>)	163
3.4.2	Branch	165
3.4.3	Juniper berry (<i>Juniperus sp.</i>)	168
3.4.4	Mushroom	171
3.4.5	Resin	173
3.4.6	Sprout, bud, shoot	173
3.4.7	Tree, shrub	176
3.4.8	Walnut (<i>Juglans regia</i>)	176
4	Fauna	179
4.1	Invertebrates	179
4.1.1	Ant	179
4.1.2	Backswimmer (<i>Notonecta glauca</i>)	182
4.1.3	Bed bug (<i>Cimex lectularius</i>)	182
4.1.4	Caterpillar; earwig (<i>Forficula auricularia</i>)	186
4.1.5	Clothes moth (<i>Tineidae</i>)	188
4.1.6	Cockroach (<i>Blatta orientalis</i>) ₁ ; cockchafer (<i>Melolontha melolontha</i>); darkling beetle (<i>Blaps sp.</i>)	188
4.1.7	Cockroach (<i>Blatta orientalis</i>) ₂ ; giant darkling beetle (<i>Blaps gigas</i>)	190
4.1.8	Cricket	194
4.1.9	Dragonfly; grasshopper	194
4.1.10	Earthworm (<i>Lumbricus terrestris</i>)	196
4.1.11	Grasshopper ₁	198
4.1.12	Grasshopper ₂	201
4.1.13	Rose chafer (<i>Cetonia aurata</i>)	202
4.1.14	Spider	204
4.1.15	Slug, snail; cicada	207

4.1.16	Tick (swollen with blood)	209
4.1.17	Worm.....	212
4.2	Fish.....	214
4.2.1	European eel (<i>Anguilla anguilla</i>).....	214
4.2.2	Trout fry (<i>Salmo cettii</i>) ₁	216
4.2.3	Trout fry (<i>Salmo cettii</i>) ₂	219
4.3	Reptiles	219
4.3.1	Gecko (<i>Tarantola mauritanica</i>)	219
4.3.2	Lizard (<i>Podarcis tiliguerta</i>)	221
4.3.3	Lizard; snake	225
4.3.4	Skink (<i>Chalcides ocellatus tiligugu</i>); slug.....	225
4.3.5	Viperine snake (<i>Natrix maura</i>) ₁	228
4.3.6	Viperine snake (<i>Natrix maura</i>) ₂	231
4.4	Birds.....	231
4.4.1	Bee-eater (<i>Merops apiaster</i>)	231
4.4.2	Bird of prey	234
4.4.3	Bird species (various)	234
4.4.4	Kestrel (<i>Falco tinnunculus</i>) ₁	237
4.4.5	Kestrel (<i>Falco tinnunculus</i>) ₂	237
4.4.6	Kite (<i>Milvus milvus</i>)	240
4.4.7	Plover (<i>Pluvialis apricaria</i>)	242
4.4.8	Raven (<i>Corvus corax</i>).....	242
4.4.9	Robin (<i>Erithacus rubecula</i>) ₁ ; yellow wagtail (<i>Motacilla flava</i>); hare (<i>Lepus sp.</i>).....	244
4.4.10	Robin (<i>Erithacus rubecula</i>) ₂ , wren (<i>Troglodytes troglodytes</i>) ₁	247
4.4.11	Scops owl (<i>Otus scops</i>)	248
4.4.12	Wren (<i>Troglodytes troglodytes</i>) ₂	250
4.5	Mammals.....	252
4.5.1	Bat.....	252

4.5.2	Bat ₂	255
4.5.3	Dog	256
4.5.4	Doggie, puppy	258
4.5.5	Fawn (<i>Cervus elaphus corsicanus</i>), lamb	260
4.5.6	Fox (<i>Vulpes vulpes</i>) ₁	263
4.5.7	Fox, vixen (<i>Vulpes vulpes</i>) ₂	265
4.5.8	Hare (<i>Lepus sp.</i>)	267
4.5.9	Marten (<i>Martes martes</i>)	269
4.5.10	Mouflon (<i>Ovis aries musimon</i>)	273
5	Geography	275
5.1	Natural features	275
5.1.1	Chasm; pile	275
5.1.2	Clay	277
5.1.3	Den (for animals)	279
5.1.4	Forest	281
5.1.5	Highland	283
5.1.6	Hillock	286
5.1.7	Humid place	288
5.1.8	Marsh	291
5.1.9	Marshy valley	292
5.1.10	Pit	295
5.1.11	Plateau	299
5.1.12	Plateau, characterized by jagged rock outcroppings	299
5.1.13	Plateau, flat terrain	302
5.1.14	Plateau, small	304
5.1.15	Precipice, cliff, ravine	304
5.1.16	Puddle	306
5.1.17	Ravine, gorge	308

5.1.18	Rock, boulder	310
5.1.19	Rock crevice ₁	313
5.1.20	Rock crevice ₂	315
5.1.21	Rock outcropping ₁	317
5.1.22	Rock outcropping ₂	317
5.1.23	Rocky plain	320
5.1.24	Secluded place	320
5.1.25	Stream, torrent	322
5.1.26	Summit, in isolation	326
5.1.27	Water basin; source; stream	326
5.1.28	Whirlpool; crevice	328
5.2	Man-made structures	330
5.2.1	Border, limit	330
5.2.2	Nuraghe	332
5.2.3	Pile of rocks	334
5.2.4	Pile of rocks; dry stone wall	337
5.2.5	Source	338
6	Culture and economy	341
6.1	Agriculture	341
6.1.1	Bran	341
6.1.2	Goat or sheep that lost its young	344
6.1.3	Herd	344
6.1.4	Hornless (of goats)	347
6.1.5	Sheep (old, skinny)	347
6.1.6	Sheep (old)	349
6.1.7	Stack of wheat	352
6.1.8	Tilled land	352
6.2	Material culture and food	354

6.2.1	Bread made of acorns and clay.....	354
6.2.2	Clay used to make acorn bread.....	358
6.2.3	Clothes given to servants as a gift on certain holidays.....	358
6.2.4	Mat ₁	360
6.2.5	Mat ₂	362
7	Miscellaneous	367

Acknowledgements

This dissertation is the product of a ten-year journey that began when I moved to Leiden to study Indo-European linguistics at the age of seventeen. While my name appears on the cover, its completion would not have been possible without the support and guidance of many, only a few of whom I am able to acknowledge here.

First and foremost, I wish to express my deep gratitude to my supervisors Guus Kroonen and Maarten Kossmann. Guus, as the supervisor of my bachelor thesis, enabled me to pursue my interest in the Romance languages, even though these are not central to “traditional” Indo-European research. He later provided me with the invaluable opportunity to join the EUROLITHIC research project, first as an intern, then as a student-assistant, and finally as a PhD candidate. His support and confidence in my abilities have been of immeasurable value. Maarten has helped me expand my interests beyond Europe, across the Mediterranean. His indispensable assistance in Berber etymologies and his exceptional talent for demarcating research topics and methodology have been of great help throughout the project.

I also want to thank my teachers at Leiden University especially Alwin Kloekhorst, Michaël Peyrot, Sasha Lubotsky, and Tijmen Pronk. Their outstanding teachings have laid the foundation for my development as a linguist. I extend special appreciation to Lucien van Beek, for giving me the valuable opportunity to acquire teaching experience.

Several people have played important roles, in various ways, throughout my PhD project, and I would like to acknowledge them in roughly chronological order. I thank Laura Dees for her companionship, for keeping me grounded during the pandemic, and for giving me the courage to embark on my academic journey. She, Clemens Mayer, and Jurriaan Wiegertjes were the best classmates I could have wished for, and I look back fondly on the study sessions, dinners, and drinks we shared.

My time at the Leiden Center for Linguistics has been unforgettable, thanks to the many friends I made along the way. My utmost appreciation goes out to my wonderful office mates and fellow project members: Andrew Wigman and Paulus van Sluis at the “western” desk, Anthony Jakob, Axel Palmér and Rasmus Thorsø at the “eastern” desk. I will miss our thought-provoking discussions and

transcendent whiteboard mind mapping sessions. I am equally grateful to my other colleagues, who have become dear friends: Ahmed Sosal, Bente De Graeve, Carmen Spiers, Eleonora Settembrino, Hester Groot, Jesse Wichers Schreur, Jiang Wu, Louise Friis, Matthew Sung, Natasja Delbar, Niels Schoubben, Olga Nozdracheva, Saskia Dunn, Sophia Nauta, and many others. Their presence has made the LUCL feel like a second home to me. My sincere thanks also go to my paranymp Abel Warries, one of my oldest friends in Leiden.

A crucial experience during my project was the semester I spent at the University of Cagliari. I extend my heartfelt thanks to Michele Loporcaro for his invaluable assistance in facilitating this. I am deeply grateful to Giulia Murgia, who so warmly welcomed me to Cagliari and introduced me to the fundamentals of Sardinian philology and linguistics. Gràtzias fintzas a Bruna Siriu e Càrminu Pintore po m'imparai su pagu sardu chi chistionu. I also wish to thank my classmates Carlo, Giovanna, Michela, and Sandra for their kindness, and to Alessandro and his family for giving me a home during my stay. I am greatly indebted to Rita Porqueddu for her help in accessing essential sources in the University library of Cagliari. My time in Cagliari was greatly shaped by the wonderful friends I met: Asia, Basia, Carolina, Eli, Gabriel, Ibrahim, Johanna, Laura, Maks, Marta, Martin, Mikołaj, Muriel, Nina, Nona, Sanyi, Theodora, Tiago, Tilman, Yana, and many others. Thank you all for exploring Sardinia with me and for making my time there one of the most memorable experiences of my life. To you, I raise an *Uweschluss*.

Many others have contributed to this dissertation, be it by providing constructive criticism, expressing interest, or simply by their friendship. For reasons of space, most of them must remain unnamed, but they include my housemates and friends from Collegium Musicum. However, I would like to extend a special thanks to Tristan van Laar for his affection and for being there for me in moments of doubt. Some old friends have become constants in my life: Bram, Brenda, George, Ellen, Ingo, Jesper, Job, Leopold, Lieke, Maarten, Marla and Ramon. I am deeply grateful for always being able to rely on them. Finally, my most profound gratitude goes to my family, particularly to my grandparents Anneke, Jan, Math and Mieke, my siblings Fee and Gebre, and my parents Bart and Ilja. Zo- onder eur oonaafgebroke leefde, sjteun en geluif in mich haw ich nwats zwa- wied kinne kome. 'ne Hjelle grwatte merci.
