Targeted Interventions in Mechanically Ventilated Patients

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof.dr.ir. H. Bijl,
volgens besluit van het college voor promoties
te verdedigen op vrijdag 4 april 2025
klokke 13.00 uur

door

Lea Imeen van der Wal
geboren te Gendringen
in 1992

Promotores: Prof. Dr. E. de Jonge
Prof. Dr. A. Dahan

Copromotor: Dr. H.J.F. Helmerhorst

Promotiecommissie:	Prof. Dr. F.A. Klok	
	Prof. Dr. S. Middeldorp	Radboud Universiteit
	Prof. Dr. M.M. Levi	Universiteit van Amsterdam
	Dr. M. Niesters	
	Dr. A.M.E. de Man	Universiteit van Amsterdam

If you cannot explain it simply,
you don't understand it well enough

Albert Einstein

TABLE OF CONTENTS

Chapter 1	General introduction and thesis outline	8
PART 1	Oxygen	16
Chapter 2	Higher versus lower oxygenation strategies in the general intensive care unit population: a systematic review, meta-analysis and meta-regression of randomized controlled trials.	18
Chapter 3	ICONIC study – conservative versus conventional oxygenation targets in intensive care patients: study protocol for a randomized clinical trial	38
Chapter 4	Conservative versus Liberal Oxygenation Targets in Intensive Care Unit Patients: a randomized clinical trial	60
Chapter 5	Perspectives of ICU Patients on Deferred Consent in the Context of Post-ICU Quality of Life - a substudy of a randomized clinical trial	80
Chapter 6	Volume of oxygen administered during mechanical ventilation predicts mortality in ICU patients	96
PART 2	Anticoagulant treatment	102
Chapter 7	Early effects of unfractionated heparin on clinical and radiological signs and D-dimer levels in patients with COVID-19 associated pulmonary embolism: an observational cohort study	104
Chapter 8	Elevated Unfractionated Heparin Requirement in COVID-19 patients: exploring influencing factors	118
PART 3	Pain management	132
Chapter 9	Intraoperative use of the machine learning-derived nociception level monitor results in less pain in the first 90 min after surgery	134
Chapter 10	Evaluating opioid dosing in the ICU using Nociception level Monitoring: comparing COVID-19 and non-COVID-19 patients	150
PART 4	Summary and future perspectives	166
Chapter 11	Summary, future perspectives and conclusions	168

PART 5 Appendices	178
Nederlandse samenvatting	182
Curriculum Vitae	191
List of publications	192
Acknowledgements	193
