Translation invariant Banach function spaces on groups

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof.dr.ir. H. Bijl,
volgens besluit van het college voor promoties
te verdedigen op donderdag 19 juni 2025
klokke 11.30 uur

door

Chun Ding

geboren te Huai'an
in 1994

Promotores:

Dr. M.FE. de Jeu

Dr. O.W. van Gaans

Promotiecommissie:

Prof. dr. K. Boulabiar (University of Tunis El Manar)

Prof. dr. ir. G.L.A. Derks

Prof. dr. H.J. Hupkes

Prof. dr. V.G. Troitsky (University of Alberta)

Prof. dr. J.H. van der Walt (University of Pretoria)

This research was funded by China Scholarship Council
(grant no. 201906200101)

Contents

1	Introduction	3
1.1	Context and main themes	3
1.2	Overview	5
2	Preliminaries	7
2.1	Universal properties	7
2.1.1	Categories and functors	7
2.1.2	Direct limits	8
2.1.3	Tensor products	9
2.2	Vector lattices and Banach lattices	9
2.3	Inductive limit topologies	12
2.4	The dual of $C_c(X)$	14
2.5	Topological groups and Haar measures	15
2.6	Vector-valued integrals	18
3	Direct limits of Banach lattices	21
3.1	Introduction and overview	21
3.2	Interval preserving and almost interval preserving linear maps and lattice homomorphisms	25
3.2.1	Interval preserving linear maps and lattice homomor- phisms	25
3.2.2	Almost interval preserving linear maps and lattice ho- momorphisms	28
3.3	Existence via three standard constructions	34
3.3.1	Direct limits of vector lattices	34
3.3.2	Direct limits of normed lattices	38
3.3.3	Direct limits of Banach lattices	41
3.4	Additional results	43
3.5	Direct limits and order continuity	48
4	Definitions and properties of convolutions	53
4.1	Pointwise definition of convolution	53
4.2	Vector-valued integral definition of convolution	56
4.3	Tensor product definition	61

4.4	Fairchild's definition of convolution	63
4.5	Comparison of definitions	65
5	Order continuity of a Banach function space and density of $C_c(G)$	67
5.1	Banach function spaces	67
5.2	Some properties of translation invariant Banach function spaces	69
5.3	Order continuity implies density	70
5.4	Density implies order continuity	72
6	Operators that commute with translations	79
6.1	Brainerd's and Edwards's result	79
6.2	Generalisation of Brainerd's and Edwards's result	82
6.3	The strongly closed linear span of translations	85
6.4	Similar results in operator theory	87
6.4.1	C^* -algebra	88
6.4.2	Results	89
6.4.3	Comparison and open question	90
	Bibliography	91
	Summary	95
	Samenvatting	99
	Curriculum Vitae	103
	Publication list	105
	Acknowledgements	107
