Luttinger liquid on a lattice

Zakharov, V.

Luttinger liquid on a lattice

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof.dr.ir. H. Bijl,
volgens besluit van het college voor promoties
te verdedigen op dinsdag 23 September 2025
klokke 10.00 uur

door

Vladimir Aleksandrovich Zakharov
geboren te Sint-Petersburg, Rusland
in 1997

Promotores: Prof. dr. C. W. J. Beenakker
Prof. dr. İ. Adagideli (Sabanci University, Istanbul, Turkey)

Promotiecommissie: Prof. dr. A. Boyarsky
Dr. N. Chepiga (TU Delft)
Dr. P. R. Corboz (Universiteit van Amsterdam)
Prof. dr. S. J. van der Molen
Prof. dr. K. E. Schalm

Cover:
You see water – a universal metaphor for the physics of collective behavior presented in this thesis. Water is a liquid, a state of matter where interactions play a crucial role. The surface of water serves as a good example of a disordered landscape shaped by external random forces. Finally, this landscape naturally contains many different peaks and valleys, as well as various types of saddle points connecting them.
Cover design: Maria Zakharova, original photograph: Vladimir Zakharov.
