Catching cereal killers

A multi-omics approach to disentangle
yeast-*Fusarium* interactions in the
phyllosphere

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof.dr.ir. H. Bijl,
volgens besluit van het college voor promoties
te verdedigen op woensdag 15 oktober 2025
klokke 16:15 uur

door

Linda Gouka
geboren te Den Haag
in 1996

Promotores

Prof. dr. J. M. Raaijmakers

Prof. dr. L. Hestbjerg Hansen
University of Copenhagen

Co-promotor

Dr. V. Cordovez
Netherlands Institute of Ecology

Promotiecommissie

Prof. dr. A. H. Meijer

Prof. dr. A. T. Kovács

Prof. dr. A. Ram

Assoc. Prof. dr. B. Turchetti
University of Perugia

Dr. R. L. Berendsen
University of Utrecht

Catching cereal killers: A multi-omics approach to disentangle yeast-*Fusarium* interactions in the phyllosphere

The research described in this thesis was performed at the Department of Microbial Ecology, Netherlands Institute of Ecology (NIOO-KNAW), Wageningen, The Netherlands.

Linda Gouka was supported by the Novo Nordisk Foundation, Hellerup, Denmark grant NNF19SA0059348 'the MATRIX: Microbiome Assisted Triticum Resilience In X-dimensions'.

Cover design and graphical illustrations: Cristina Serra I Melendez

Thesis design and layout: Linda Gouka

This is NIOO thesis number 230

ISBN 978-94-6473-913-8

‘Science knows no country, because knowledge belongs to humanity, and is the torch which illuminates the world.’

Louis Pasteur

Table of contents

Chapter 1	
General introduction	008
Chapter 2	
Ecology and functional potential of phyllosphere yeasts	026
Chapter 3	
Genetic, phenotypic and metabolic diversity of yeasts from wheat flag leaves	052
Chapter 4	
Genomic signatures and adaptive traits of phyllosphere yeasts	080
Chapter 5	
Chemical ecology in the phyllosphere: yeast- <i>Fusarium</i> interactions and mycotoxin modulation	118
Chapter 6	
Volatile-mediated interactions between phyllosphere yeasts and the mycotoxigenic fungus <i>Fusarium graminearum</i>	148
Chapter 7	
Transcriptional changes in volatile-mediated interactions between phyllosphere yeasts and mycotoxigenic <i>Fusarium graminearum</i>	186
Chapter 8	
General discussion	216
Summaries	
Summary	232
Samenvatting	234
Curriculum vitae	236
List of publications	237
Acknowledgements	238
EPS Training and Education Statement	240
