our thoughts strayed constantly and without boundary.”**

David Gilmour & Polly Samson

Contents

Chapter 1	General introduction	9
Chapter 2	CT Angiography of the heart and aorta in TIA and ischaemic stroke: cardioembolic risk sources and clinical implications	19
Chapter 3	Association of aortic atherosclerosis with ischemic recurrence and clinical outcome in patients with large vessel occlusion stroke	37
Chapter 4	Assessment of collateral status by dynamic CT Angiography in acute MCA Stroke: timing of acquisition and relationship with final infarct volume	45
Chapter 5	Stroke progression and clinical outcome in ischemic stroke patients with a history of migraine	61
Chapter 6	The prognostic value of extracranial vascular characteristics on procedural duration and revascularization success in endovascularly treated acute ischemic stroke patients	79
Chapter 7	Development and validation of a prediction model for failure of the transfemoral approach of endovascular treatment for large vessel occlusion acute ischemic stroke	97
Chapter 8	General discussion	117
Chapter 9	Summary	129
Chapter 10	Nederlandse samenvatting	135
	List of publications	140
	Curriculum Vitae	142
	Dankwoord	144
