Colofon

Optimizing cancer care through e-health: status, potential, and adoption
Jeanette Elizabeth Wessels - van Deursen, 2025

The research for this dissertation was conducted at the Dutch National Institute for Public Health and the Environment (RIVM), department of Population Health and Health services research, and the National E-health Living Lab, department of Public Health and Primary Care, Leiden University Medical Centre. The studies presented in this dissertation were conducted as part of the E-healthmonitor, now known as the Digital Care Monitor (in Dutch: Monitor Digitale Zorg). The Ministry of Health, Welfare and Sport commissioned the RIVM for this monitor.
